

MADDOO CARRIES LOAN CAMPAIGN TO MIDDLE WEST

School District Organization to Be Effected in New York

SOME BIG BUYS Issue of \$400,000,000 of Loan Certificates Is Oversubscribed

NEW YORK, Oct. 2.—More of the machinery for selling the second Liberty loan was put in operation in New York city today and unofficial estimates of the amount subscribed in the metropolitan district during the first two days of the "drive" placed the total between \$50,000,000 and \$60,000,000.

Coming in Briskly

WASHINGTON, Oct. 2.—Treasury officials today were elated at the returns pouring in from all parts of the country indicating that the appeal to raise three billion dollars for the second Liberty loan is meeting with an enthusiastic response from the public.

Must Be No Failure

INDIANAPOLIS, Oct. 2.—If by any possible chance a single loan offered by the United States government to the American people should fail, it would be a more fatal disaster and have worse effect than the loss of a great battle.

The least that can be done for the American people is to give them the means of defending themselves so that when they meet the German "every brave boy at the front will know that in his hands, put there by American love and American skill, is a weapon that the war possibly can be decided, that will give him a possible superiority over his foe."

Certificates Taken

WASHINGTON, Oct. 2.—Liberty loan financing was marked today by the over-subscription of the largest issue of short-term treasury certificates of indebtedness put out by the government.

The amount of the over-subscription was not stated by the treasury tonight, but the taking of the entire issue, which is \$100,000,000, or one-third greater than any previous offering, with a margin to spare, was regarded as presaging the success of the second Liberty loan.

Today's offering of certificates brings the total up to \$1,250,000,000, or more than 40 per cent over the amount set by Secretary McAdoo for the second Liberty loan.

Irishman Takes \$4000

SEATTLE, Wash., Oct. 2.—John Flaherty, native of Ireland and self-proclaimed loyal subject of Great Britain, today subscribed for \$4000 worth of the second Liberty loan bonds.

At Camp Lewis

TACOMA, Wash., Oct. 2.—Acting upon instructions from Washington, D. C., plans are being worked out at Camp Lewis for a campaign to sell Liberty bonds to officers and men of the Ninth army division, which is expected to result in putting the names of several thousand soldiers on the honor roll.

WOMEN TO FORM FOOD ARMY FOR THIS STATE

Military Organization to Be Effected on Volunteer Basis

SOME BIG BUYS Support Will Be Given to Men on European Firing Line

SAN FRANCISCO, Oct. 2.—Women of California are to be formed into an army in close emulation of the United States army for the purpose of conserving foodstuffs and other supplies according to an announcement today by the Federal food commission for California.

The commission plans to form 20 divisions with 1514 women in each division. Teaching each division will be a major general, two brigadier generals, six colonels, two adjutant generals, 13 majors, 18 adjutants, 64 captains, 182 lieutenants and 523 sergeants.

Every organization of women in the state will be asked to join this vast conservation army. The women will be advised that the work of the food army will in no way interfere with their club or other activities.

It is planned to have a woman food conservation corps in each of the counties of the state, in order that they may appeal to her for anything he may need in the line of comforts. The trooper will be told to which woman soldier he must apply, and she will be directed to see that he is well provided for.

Efforts are being made to complete the organization of this new army before October 21, in accordance with the desires of Food Administrator Herbert C. Hoover.

CHILE MAY BREAK WITH GERMANY

SANTIAGO, Chile, Oct. 2.—Peru's seizure of German elements at Callao and the expulsion of Count Von Luxburg, the German minister to Argentina, from Buenos Aires, are again causing public attention in Chile. It is believed in government circles here that the presence of Count Von Luxburg in Chile or in any other South American country would affect the solidarity of the republics in the western hemisphere.

Guillermo Alcachena, in an article in the Mercurio, says that if Chile does not sever diplomatic relations with Germany it would signify the breaking of the bonds which unite Chile with civilized countries.

Germans Vainly Try to Break the British Line in Flanders

That extreme nervousness over approaching events pervades the German front in Flanders is indicated by the infantry attacks the forces of Crown Prince Rupprecht of Bavaria are throwing against British positions.

These attacks are being centered upon the apex of Haig's salient in the line which is pointing dangerously toward the Ostend-Lille railway, the ultimate gaining of which by the English, Scotch and Australian contingents would work havoc to the replenishing with supplies of the German line to the south from the naval base of Ostend and Zeebrugge.

In storming waves of great strength, the Germans have made valiant efforts to break the British positions captured in the recent offensive, but everywhere except at two points they met with decisive repulse.

Under the hurricane of fire which swept against them from guns of all calibers, striding the ground with their dead or wounded. Numerous prisoners also have been taken by the British and to a man they have evinced gratification that they are safe from the inferno of bursting shells, which the British without cessation are pouring in upon the German holdings.

German Retaliation
The big guns of the Germans have not been idle during the fighting, but their strength in it is now comparable to that of the great army of cannon that Haig has set up for the purpose of pounding the German entrenchments, for warding off attacks and for screening his infantry as they surge forward on new exploits.

The French and the Germans are engaged in violent artillery duels along the entire front of the Verdun sector, in both of which regions the German army has been successful, especially near Craonne and Beaumont and between Hill 34 and Samogneux. Near Hill 34 the Germans entered a French position which later was recaptured in a counter attack.

Russians Still Resisting
On the northern front in Russia, in the region south of Riga, the Russians are keeping up their offensive against the German and have beaten back the enemy for a distance of one mile south of the Kronenberg-Spilva Groundline sector. Quiet still prevails on the eastern front farther south and in Galicia and Rumania.

Bombarding German Cities
British and French aviators are continuing their raids against German positions behind the lines and the French aviators are carrying on further raids against German cities and towns for the bombardment of open towns, thereby 4000 tons of explosives have been dropped, by French aviators on Stuttgart, Frankfurt-am-Main, Coblenz and Treves, while in conjunction with British aviators, railway stations, airfields, munition depots and military encampments have been effectively bombed.

SWEDISH KING INSISTS CABINET RETAIN OFFICE

STOCKHOLM, Oct. 2.—The Swedish ministry has resigned but King Gustave has requested the ministers to retain their portfolios for the present.

AUSTRIANS NOT FIGHTING TO GIVE KAISER NEW LAND
AMSTERDAM, Oct. 2.—The Vienna Zeit published by Chancellor Meini, who is an intimate friend of Dr. Van Zeeland, the Austrian premier, says: "We fight for Austria and Austria, not for Germany, whose interests are not ours. We do not fight to keep Belgium or Courland."

PERMITS AMERICANS IN ALLIED ARMIES TO REGAIN RIGHTS

WASHINGTON, Oct. 2.—The Senate bill to repatriate Americans serving with the Allied armies was passed by the House today after being amended to meet state department views.

MAY INTERN 185 GERMAN SAILORS AT FAIR GROUNDS

SACRAMENTO, Oct. 2.—Final decision as to whether or not the state fair grounds will be used as a government internment camp for keeping 185 German officers and sailors now at Angel Island, has not yet been reached by F. H. Berkshire, of the United States department of labor, who took up the matter yesterday with Governor Stephens, upon his return from his trip to Europe.

GERMAN CITIES FEAR REPRISALS BY BRITISH AIRMEN

GENEVA, Oct. 2.—A Swiss painter, who has been copying Dutch masters in the Cologne museum and has just returned here, says that the Germans now are expecting aerial reprisals and are preparing "anti-air" paintings in places of security. The police of Cologne have issued instructions to the populace as to their conduct during raids. Most of the Rhine towns, following this example, are taking precautions.

J. T. GOODMAN DEAD.
SAN FRANCISCO, Oct. 2.—Joseph T. Goodman, editor and writer, friend of Mark Twain, died at a hospital here yesterday after an illness of four months, it became known today. He was 80 years old.

Germans Vainly Try to Break the British Line in Flanders

That extreme nervousness over approaching events pervades the German front in Flanders is indicated by the infantry attacks the forces of Crown Prince Rupprecht of Bavaria are throwing against British positions.

These attacks are being centered upon the apex of Haig's salient in the line which is pointing dangerously toward the Ostend-Lille railway, the ultimate gaining of which by the English, Scotch and Australian contingents would work havoc to the replenishing with supplies of the German line to the south from the naval base of Ostend and Zeebrugge.

In storming waves of great strength, the Germans have made valiant efforts to break the British positions captured in the recent offensive, but everywhere except at two points they met with decisive repulse.

Under the hurricane of fire which swept against them from guns of all calibers, striding the ground with their dead or wounded. Numerous prisoners also have been taken by the British and to a man they have evinced gratification that they are safe from the inferno of bursting shells, which the British without cessation are pouring in upon the German holdings.

German Retaliation
The big guns of the Germans have not been idle during the fighting, but their strength in it is now comparable to that of the great army of cannon that Haig has set up for the purpose of pounding the German entrenchments, for warding off attacks and for screening his infantry as they surge forward on new exploits.

The French and the Germans are engaged in violent artillery duels along the entire front of the Verdun sector, in both of which regions the German army has been successful, especially near Craonne and Beaumont and between Hill 34 and Samogneux. GREAT WAR TAX BILL FINALLY PASSES BOTH HOUSES

Debate in Senate Very Brief; Postage Discussed

ADJOURN SOON Service Insurance Bill Only Contested Measure Remaining

WASHINGTON, Oct. 2.—Congress finished its work on the great war tax bill late today when the Senate, following the example set yesterday by the House, adopted the conference report without a roll-call. More than two and a half billion dollars of new taxes are levied by the measure which has been in the making since last April.

As soon as the bill is engrossed and signed tomorrow by Vice-President Marshall and Speaker Clark, it will be sent to the President, who is expected to sign it immediately.

The administration's bill, which has passed the House, will be brought up tomorrow in the Senate. The only other measure the leaders expect to put through adjournment is the eight billion dollar deficiency appropriation bill.

As finally drafted after one of the longest and most strenuous struggles in congressional history, the revenue bill, which was passed by the House May 23, and by the Senate after a month's debate, September 18, draws principally upon incomes and war excess profits.

The bill now is estimated to raise about \$550,000,000 from incomes, corporate and individual and about one billion dollars from war excess profits. Other major items are \$300,000,000 from the sale of government bonds, \$70,000,000 on first-class mail; \$40,000,000 on automobiles; \$30,000,000 on freight transportation; \$20,000,000 on passenger transportation; \$2,000,000 from stamps and \$50,000,000 from amusements.

Eliminating consumption taxes on sugar, tea, coffee and gas, electric and telephone service, together with house taxes on 1915 incomes and a general 10 per cent tariff levy were features of the evolution of the bill.

BILLINGS VERDICT AGAIN IS UPHELD

Circuit Court of Appeals Decides Fair Trial Given

SAN FRANCISCO, Oct. 2.—A petition for a rehearing of the appeal of Warren K. Billings, convicted of murder, was denied today by the circuit court of appeals here.

The petition originally denied that District Attorney Charles J. Fickert had made declarations that the defendant "laughed like a hyena" during his testimony, and that such a declaration was uncalled for. The court held that Fickert was justified in the statement and that Billings had been given a fair trial before a fair judge and a fair jury.

In the petition for a rehearing, Billings held that the testimony against him was not sufficient to warrant a verdict of guilty. This court held this evidence was overwhelming, and the verdict justified.

The court in its opinion today reviewed the Billings case exhaustively and held that the defendant had been given a fair and impartial trial.

Billings is under sentence of imprisonment. He was the first of the defendants to be tried in the bomb cases here.

START REVOLT IN RUSSIAN TARTARY

Irresponsible Elements in Army Seizes Power

PETROGRAD, Monday, Oct. 1.—A revolutionary movement is in progress in Turkistan, General Cherkas, commander of the district, has been attacked and beaten. A temporary revolutionary committee has been organized to take all power. Parts of two regiments joined the revolutionaries.

The minister of the interior says he is alarmed and is confident the disturbance soon will be quelled. Government dispatches describe the Turkistan revolt as increasingly serious, irresponsible elements among the troops have obtained control of the military and seized the officers. The people are in panic.

Russian Turkistan is composed of four provinces in Central Asia extending westward to the Caspian sea. It has an area of 420,000 square miles and a population of about 6,500,000. The major portion of the country is in the neighborhood of barren or partly cultivated steppes.

PERSHING TO BE GIVEN RANK SOLELY OF "GENERAL"

Measure Providing for Chief of Staff and Other Promotions

NEED PRESTIGE American Officers in Europe Now Too Far Outranked

WASHINGTON, Oct. 2.—Revel of the grade of full general is planned by the war department to provide suitable rank for Major General John J. Pershing, commanding the American expeditionary forces in France.

It was learned tonight that Secretary Baker has submitted the department's program, which includes provision for the title of lieutenant general to be held by the officer serving as chief of staff and the making of several lieutenant generals to command corps under General Pershing, to the Senate military committee, and that legislation carrying it into effect is to be pressed for prompt passage when Congress reconvenes in December.

"But four American army officers have borne the title of general—Washington, Grant, Sherman and Sheridan, and only a few have been lieutenant generals. Since General Sheridan died in 1888, the rank of general has been extinct. No provision for a lieutenant general on the active list has been made since Lieutenant General John C. Bates retired in 1904, though there are three officers of that grade now on the retired list—General Nelson A. Miles, General Samuel B. M. Young and General Bates.

Secretary Baker explained to the committee that early promotion of General Pershing was essential, because he is to command a great army of many corps, entitling him to the highest military title, and in order to obviate the embarrassment of the high rank of European army commanders with whom he is associated.

Excitement of the administration here pointed out that the chief of staff, the directing head of the army in Washington, should rank at all other officers except the expeditionary commanders, and that staff officers generally should have rank corresponding to that of officers in the field.

Promotion Expected
That General Pershing would be promoted has been taken for granted in army circles ever since he was selected by President Wilson for the supreme trust of leading America's soldiers against the Germans, though the general belief has been that lieutenant general would be the rank.

Until the war army major generals were nominated recently he was next to the bottom of the list in that grade. Ranking him now as Major General Leonard Wood, J. Franklin Bell, Thomas H. Barry and Tasker H. Bliss, Secretary of the War Department, plans will not give General Pershing spectacular promotion for the first time. He was a captain of cavalry, 46 years old, in 1906, when President Roosevelt, jumped him over the heads of other officers to make him a brigadier general.

It is realized both at the department and in Congress that Pershing probably will lead the greatest fighting force ever sent to the front in the field. His responsibility will be second only to that of General Foch, commander in chief of all French armies, and Field Marshal Sir Douglas Haig, commanding all British forces in France. Under these two officers are marshals of France and British generals of very high rank.

As soon as the forces in France have reached a strength which will justify the action, the divisions will be organized into army corps and a lieutenant general should command each corps. It is probable also that the heads of the staff corps department under General Pershing will be given rank in proportion to the importance of their duties.

GOVERNOR URGES FIRE PRECAUTIONS

Tuesday, October 9 Designated as Prevention Day

SACRAMENTO, Oct. 2.—Governor W. D. Stephens issued a proclamation today, designating Tuesday, October 9, as fire-prevention day and calling upon citizens to put their premises in such condition that the start and spread of fire be eliminated. The proclamation follows:

"The question of fire protection has never been of greater importance than it is today. The state has in great measure responded to the call of the nation for increased production of foodstuffs and our barns and warehouses are full of our products. The navy yards, arsenals, shipbuilding plants and factories of the state are working night and day that the army and navy may not lack equipment. It is simple patriotism for us to do everything in our power to keep safety the products we have raised and to insure the successful completion of all government work. We can do a great deal toward that and if we take care that the risk of devastation by fire is kept at the minimum.

"To emphasize the importance of fire protection, I do hereby designate and set apart Tuesday, October 9, as fire protection day and do urge that all people on that day make an especial effort to put their premises in such condition that the possibility of the start and spread of fire will be eliminated."

FIVE DIE IN FOREST FIRE IN OIL DISTRICT BACK OF FILLMORE

Half Million Dollars damage to Plants—Conflagration Probably Incendiary—Dozen Injured

FILLMORE, Oct. 2.—Shortly before midnight forest rangers and other fire-fighters found the bodies of all those listed as dead with the exception of G. E. Webb, two of his children, and George Riley, all of whom they believed to be safe. In addition to the known dead, the body of an unidentified woman was found.

Undertakers have left Fillmore to bring in the bodies.

The forest supervisor had arrived from Santa Barbara and was preparing to put a large force in the field at daylight to attempt to check the fire, which was still moving towards town. He said a probable change in the wind would assist his efforts.

FILLMORE, Cal., Oct. 2.—Two forest fires in the hills back of this town are believed to have caused the loss of nine lives and have destroyed oil derricks, pipe lines, buildings and other property to a value estimated tonight at \$500,000.

The flames are tonight sweeping towards Fillmore, but a slight change in the wind has given hope that the fire might be checked there. The fire may be able to check their advance.

A dozen persons, suffering from severe burns, have been brought here, treated by local physicians and are being cared for in local homes.

Forest rangers tonight freely expressed the opinion that the cause of the fires was the carelessness of some of the oil men, saying they started in inaccessible regions, where neither hunters nor prospectors ever penetrate.

The list of the missing includes Ruth Sander, a young woman; Mr. and Mrs. C. W. War, and three of their children; George Riley and Walter Matthews, all of whom were employed on or living at the Amadaco lease of the Union Oil Company; R. A. Prindle of the Leonard gasoline plant, is also among the missing. Pershing is returning the scene of the fires expressed the belief that none of the missing could have escaped.

Miss Sander, it was reported, was fleeing from the fire with her brother when she stumbled and fell; her brother retraced his steps and attempted to assist her, but his own clothes caught fire and he was severely burned and he was unable to rescue her.

A force of fire-fighters was engaged here also in an attempt to control the flames.

Loss of rain and subsequent dryness of the timber and underbrush made the menace greater in both fires.

JOHNSON URGES SAILORS' TRAINING

Mercantile Service Needs Help as Much as Navy

SAN FRANCISCO, Oct. 2.—Declaration that merchant sailors are needed as urgently as soldiers, and therefore that the United States shipping boards free navigation school should be encouraged, is contained in a statement by Senator William Johnson issued here today. The statement says:

"The free navigation schools organized by the United States shipping board to train officers for the merchant marine offer an exceptional channel of patriotic service to the men of the sea. Our sea forces will soon be numbered by millions. The nation is answering the call to arms. But it requires more than soldiers and guns to win a war. It requires a navy of being built. Men are needed to officer these ships. The nation's call to its merchant seamen is equally urgent."

"San Francisco's navigation school has been successfully started and I hope that in California the support for the training of merchant sailors for this essential service will have a response so generous that California may again take the highest pride in its citizenship and the loyal service of that citizenship to the nation."

DEMAND REMOVAL OF A. H. EATON

Support Given to Enemies of Nation by Oregon Instructor

EUGENE, Ore., Oct. 2.—The Eugene chamber of commerce, at a meeting last night, attended by 200 business men and citizens unanimously passed a resolution demanding the removal of Allen H. Eaton as a member of the faculty of the University of Oregon and as representative from Lane county in the Oregon state legislature because of his participation in the people's council for democracy and justice.

Eaton had agreed to make a statement before the body. Before the meeting he telephoned he would not come in person but that he would send a statement. The members waited until 10:15 for the statement. It was read and formally declared unsatisfactory.

J. E. Shelton, who introduced the original resolution stated: "The position taken by the Chamber of Commerce is that any man who at this time holds the right of free speech for agitators and propaganda in the name of the nation's cause has no place as a member of the faculty of the University of Oregon or in any other American body."

CALLS ELECTION OF PARLIAMENT

Chinese President Has Settled Differences With Tuan Chi-jui

PEKING, Sunday, Sept. 30.—(Delayed).—President Feng Kwo-chang today issued three mandates—providing for the establishment of a national council, the election of a parliament and the arrest and punishment of Dr. Sun Yat Sen, one of the prime leaders of the southern revolutionary movement and his associates, including all the members of the Canton parliament.

All the provinces are to elect five members to the council, which is to convene in Peking within a month to revise the election laws for parliament, which is to meet within ten months. The council will exercise no other legislative functions than the revision of the election laws, leaving everything else to parliament.

The mandate indicates that the friction between President Feng Kwo-chang and Tuan Chi-jui, premier and minister of war, has been harmonized as the president has been opposed to the calling of a national council.

The serious disaffection in the provinces of Hunan and Szechuan have strengthened the revolutionary movement in Canton and demands have been made for the government to act immediately in order to overcome criticism against further delay.

NEVILLE TO RESIGN TO HEAD REGIMENT

Nebraska's Governor Is Youngest in United States, 33 Years Old

LINCOLN, Oct. 2.—Governor Keith Neville of Nebraska has been appointed colonel of the new Seventh regiment, Nebraska national guard reserves, now in process of formation, and has stated that he would resign as governor as soon as the regiment is called for service. The appointment was made by Acting Governor Edgar Howard last Saturday, during the governor's absence at Washington.

Governor Neville has received assurance from war department officials at Washington that the new regiment will be recognized as an additional unit of the Nebraska national guard.

Governor Neville, who is 33 years old and the youngest governor in the United States, has had six years schooling at St. John's military school at Annapolis, having graduated therefrom in 1905. He is known as one of the best rifle and gun shooters in Nebraska.

BIG SALMON PACK
SAN FRANCISCO, Oct. 2.—The special Alaska salmon pack with a total of \$15,000,000, according to an announcement by the Alaska Packers' Association here today.

CHANCE TO GET MEXICAN TRADE

Say Obregon and Alameda
at San Francisco on
Way East

SAN FRANCISCO, Oct. 2.—America's hour for taking over the bulk of Mexico's trade is at hand, according to statements by General Alvaro Obregon, Mexican minister of war on leave, and Alameda, Alameda, purchasing agent for the Mexican government, at a luncheon of the Commercial Club here today. The luncheon was held in honor of General Obregon, Alameda, and members of their staffs, who are visiting here.

General Obregon said he came as a private citizen and was traveling purely for pleasure. Alameda in his address asserted: "Ninety per cent of the trade developed in Mexico is going to European countries. There is no reason why America should not get this business. Germany is especially active at present in developing her trade interests in Mexico."

General Obregon and his party expect to leave here Saturday for Washington.

BRITISH WANT MEN AS AVIATION MECHANICS

A special drive for mechanics whose age does not exceed 45 years, and who are British subjects, has been inaugurated by the British Recruiting Mission for the purpose of filling the ranks of the Canadian aviation service.

Artisans not enlisted are not required to fly. Their duties will be to repair and maintain airplanes. Acetylene welders, blacksmiths, copper-smiths, carpenters, motor drivers, torpedomen, electricians, engine fitters, automobile fitters, millwrights, metal turners, plumbers, cabinetmakers and vulcanizers are among the trades in demand.

The pay ranges from \$1.50 to \$2.50 a day, with "subsidy allowance" of \$2.50 a month to each man's wife. In addition the wife is assured of enough aid from the "patriotic fund" to enable her to live comfortably while her breadwinner is serving his country. Recruits will have all expenses paid to Toronto, whence they will be sent to Fort Worth, Texas, for winter work. Leads to learn aviation are also wanted in Canada. They must be under 25 years of age, and undergo the most rigid test applied in any branch of the service. If physically and mentally sound they are accepted here, but there are certain essential qualifications which can only be ascertained by actual flying with an instructor.

ADVISES SAVING SULPHUR IN COAL

CHICAGO, Oct. 2.—The yellow, glistening metal so common in lumps of coal, known as "fool's gold," may be turned into real gold, according to a statement today by Joseph E. Fogarty, a geologist. He asserted that the "fool's gold," or pyrites is rich in sulphur, a substance used in large quantities for explosives and other war purposes.

He urges mine owners to turn this supposedly waste product into a handsome profit. In doing so, he said, the coal industry would not only gain, but will render a distinct service to the country at large, which is badly in need of domestic supplies of pyrites.

COTTON HARVEST PROSPECTS LESS

WASHINGTON, Oct. 2.—Deterioration during September over almost the entire cotton belt caused loss of 450,000 bales in the prospective production of cotton, and leaves the 1917 crop at 12,047,000 equivalent, 500,000 bales less. The department of agriculture in its final condition of the season today announced a decline of 44 per cent in cotton's condition during the month, caused principally by boll worms and weevils. Cool weather, drought, shedding, with blight, lack of potash in fertilizer and in the extreme eastern belt, storm and ice also caused loss. Plucking of cotton is general and is being pushed except in the northern part of the belt, the department of agriculture reported.

NAVAL SERVICE

Three enlistments were recorded at the navy recruiting office at the Federal building yesterday. The accepted recruits were: A. D. Disbrow, James A. Mitchell and Maurice Pracher, all of Fresno.

A Simple Way To Remove Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find all itching and itching of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

THE WORLD WAR

No German Peace Wanted

LONDON, Oct. 2.—Joseph Havrlock Wilson, general secretary of the National Seamen's Union, in a speech at Middleboro last night, declared that all want peace, "but we are not going to have a German peace." It has been said that it is impossible to have a military victory. Well, if we cannot win the war with such a great weight as that of the United States, we do not deserve to win.

Wilson added that if he could have his way, "we will deliberately punish the Germans for the crimes they have committed." He enjoined all the seamen "to keep the flag at the masthead, never to surrender, and to go straight on with the determination that we are going to win and bring about peace on satisfactory terms."

The speaker declared that some pacifists "who love every country but their own" would make believe that Great Britain was as guilty in this war as the Germans.

"I can only describe them," he said, "as very foolish men."

Work of Col. House

PARIS, Oct. 2.—The Temps, regarding the mission given Colonel E. M. House in gathering historical data on the entrance of America into the war, says:

"President Wilson thinks it is impossible to govern without foreseeing, and that one cannot foresee without studying, while the United States is still engaged in building its powerful war machines, its President created an instrument that will serve later to prepare for peace. This department is confided to Colonel House, a sagacious man, who keeps himself out of politics."

Name Army Camps

WASHINGTON, Oct. 2.—General orders made public today at the war department show that the concentration camp at Camp Meritt, N. Y., has been named in honor of the late Major-General Wesley Merritt, who commanded the expeditionary forces sent to the Philippines in 1898, while the camp at Newport News, Va., has been named Camp Stuart in honor of Major-General J. E. B. Stuart, the famous cavalry leader of the Confederate army.

The order states that the camps are named for men who "contributed their lives to the defense of the United States and acquisition by American citizenship of its present status."

Army Nominations

WASHINGTON, Oct. 2.—W. W. Atterbury, vice president of the Pennsylvania railroad system, now supervising railroad operations for the troops in France, was today nominated to be a brigadier general in the national army.

Other nominations for promotion to the rank of brigadier general sent to the Senate by President Wilson today were:

Adjutant general's department—Colonel James T. Kerr, U. S. A., retired; Colonel Eugene F. Ladd, U. S. A., retired; Judge advocate general's department—Lieutenant Colonel Samuel T. Ansell.

Quartermaster corps—Colonel Isaac W. Little, Colonel Chauncey B. Baker, Colonel Davis L. Brainerd.

Engineer corps—Colonel Frederick V. Abbott, Colonel E. Evelyn Winslow.

Ordnance department—Colonel Edw. B. Babbitt, Colonel Charles B. Wheeler.

Medical corps—Colonel Charles Richard, Colonel William H. Arthur, Colonel Henry P. Birmingham.

Others nominated to be brigadiers were: Colonel Benjamin A. Johnston, adjutant's department; Colonel Edward Russell, signal corps; Colonel Alfred E. Bradley, medical corps; Lieutenant Colonel Walter A. Bethel, judge advocate; Lieutenant Colonel James C. Elwood, cavalry, general staff; Lieutenant Colonel Clarence C. Williams, ordnance department; Colonel Harry L. Rogers, quartermaster corps.

"Forced on Allies"

LONDON, Oct. 2.—General Louis Botha, premier of South Africa, in addressing the opening of the convention of the South African parley, according to a Reuters dispatch from Pretoria, said the war was "forced upon the Allies" and the only thing to do now was to fight to a finish. The premier added:

"Let peace be one which will be beneficial to the whole world and enable every country to shape its future on a sound basis."

Finnish Politics

PETROGRAD, Monday, Oct. 1.—The Helsingfors correspondent of the Bourse Gazette says the socialist of Finland, looking hope of carrying the election for the new landtag, which began today. It is said the peasants are opposing the socialists.

Governor General Nekrasov of Finland in a report to Premier Kurensky says the meeting of the old landtag, which was held in defiance of the governor's prohibition, was conducted by the socialists and was not representative of the people. The prosecution of those responsible is planned.

ALBANY, N. Y., Oct. 2.—The senate of the New York legislature, by the adoption of a formal resolution today, requested Secretary of State Lansing to transmit to Governor Whitman any information not incompatible with the public welfare, which would tend to throw additional light upon the alleged participation of Secretary of Justice David C. Johnson of New York in German activities, especially to regard to Ireland.

WASHINGTON, Oct. 2.—The bill to open Polish lands for development, excepting a certain region adjacent to the Serres lake district, California, which is reserved, was signed today by President Wilson.

STOCKHOLM, Oct. 2.—More than 2000 tons of provisions, fodder, maize, oil cakes and other supplies were destroyed today by fire in store houses near Stockholm. The loss, which amounts to more than one million crowns, will be felt severely, particularly as it probably will be impossible to replace these materials under the existing import restrictions.

PARIS, Oct. 2.—The government has been invited to place in the Pantheon, where many great French are buried, an inscription to perpetuate the memory of Captain George Guynemer, the famous French aviator, who was killed in action recently as a symbol of the aspirations of an enthusiastic of the French resolution to this effect was introduced in the chamber of deputies yesterday by Deputy Laisne.

COPENHAGEN, Oct. 2.—The conference of German, Austrian and Russian military and naval representatives to be held in Copenhagen for

consideration of measures for relief of war prisoners of Russia and the Central Powers, in which the United States and Great Britain have been asked to take part, has been postponed for a fortnight. The Russian delegates will not be able to reach Copenhagen at the time originally set. The question of American participation is still unsettled.

PARIS, Monday, Oct. 1.—Prof. Chua, fiftieth of the French academy, noble prize winner for medicine in 1913, declared before the academy today that typhoid fever, which claimed many victims at the beginning of the war, had been virtually eradicated from the army through vaccination with the serum discovered by Dr. M. A. Vincent of the Val de Grace military hospital.

WASHINGTON, Oct. 2.—Soldiers in the American army not only may keep a cow, but they can feed it at government expense, provided they have the milk, says a ruling of the judge advocate general. The decision was rendered on the question of whether feed for a cow kept by a detachment of soldiers for the production of milk for the detachment mess could be legally obtained from the ration savings. In view of the regulation that "such savings shall be used solely for the purchase of articles of food."

NEW YORK, Oct. 2.—Owing to a cold recently contracted by Vincent Ishii, head of the imperial Japanese mission to the United States, it was decided to cancel the proposed trip of the mission to Theodore Roosevelt's home at Oyster Bay today. The visitor feared that the autumn weather would irritate his throat. Vice Admiral Takekuma of the mission is also suffering from a cold and was confined to his bed yesterday.

SANTA CLARA, Oct. 2.—Charles Auslin, former Stanford rugby star, who coached Santa Clara university to a football victory over Stanford last year, has received notice from a draft board to proceed to the army training camp at American Lake. It was announced here today. Auslin was engaged to coach the Santa Clara fifteen this year.

CHICAGO, Oct. 2.—The American association for the study of spindly, today announced that a fund of \$300,000 is being started to outfit a medical unit for the army. The unit will specialize in the treatment of nervous ailments resulting from shock and other causes peculiar to battle.

KANSAS CITY, Mo., Oct. 2.—"All-enemies," persons who are citizens of a country at war with the United States, cannot invoke court procedure in this country, according to the ruling of Judge E. L. Fischer of the Wyandotte County, Kansas, district court today.

ALBANY, N. Y., Oct. 2.—Governor Whitman's nomination of George W. Perkins of New York for the presidency of the new state food commission was defeated by the Senate today by a vote of 35 to 20.

CAMP DIX, WRIGHTSTOWN, N. J., Oct. 2.—Kingdon Gould, a private in the national army has received his first promotion, according to an official announcement today, which states that he is to be named as a member of the headquarters company. The appointment will carry with it the rank of first sergeant. Eventually he will become a lieutenant. Raymond Belmont, of New York, in the same company, is now a second lieutenant. Both men will be under the command of Captain Woolworth of New York.

HARTFORD, Conn., Oct. 2.—Mrs. Annabelle Parker McCallum of Brooklyn, N. Y., was arrested today by Federal authorities in a charge of attempting to persuade men to resist conscription.

AN ATLANTIC PORT, Oct. 2.—Officers of an American steamer arriving here today reported sighting what they believed to be a German raider off the Brazilian coast recently. When first seen the ship appeared to be a three-masted schooner in distress, but as the American boat approached she made off under auxiliary power, the officers, sailing in a line, saw the strange ship fly no flag, had her decks piled with lumber, with an odd deckhouse aft, which they thought concealed guns. They said the vessel also had a dummy funnel.

RICHMOND, Va., Oct. 2.—E. Clark Victor, former German vice-consul here, will be taken to Fort Oglethorpe, Ga., tonight, to be interned with other German prisoners until after the war.

NEW ORLEANS, Oct. 2.—The second day of the trial of Dr. Shany, one of the largest and most celebrated in the country, will be wiped out with-in thirty days, Mayor Behrman announced today, at the request of Secretary Daniels of the navy department.

PARIS, Oct. 2.—Solo Pasha, who is under arrest on charges of having relations with the enemy, has refused all nourishment since he was taken to prison. The authorities believe he is undertaking a hunger strike and have decided to feed him forcibly.

BRISK DEMAND FOR WHALE MEAT

SAN FRANCISCO, Oct. 2.—Whale butchering on a scale to rival the salmon industry was predicted here today by A. Faindini, a fish dealer, who yesterday received a shipment of seventeen tons of whale meat for retail distribution.

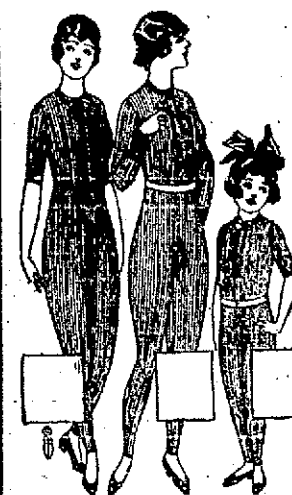

There is said to be a brisk demand for whale meat among the restaurants. Its price is said at 17 1/2 cents retail, which is 7 cents less than the prevailing price of salmon.

DONATES TOBACCO FOR SOLDIER BOYS

Aram Joseph, San Joaquin valley welder and promoter, has presented Mayor Toomey with 500 pounds of Turkish tobacco grown on his ranch in the Sanger district. The tobacco is to go into the tobacco fund for the boys of Companies C and K of the National Guards. Mayor Toomey is now making arrangements to bring the tobacco to Fresno and then ship to the soldier boys.

SHAY MURDER CASE
INDIANAPOLIS, Oct. 2.—For the second time the trial of Dr. Shany, former manager of the Milwaukee American Association baseball club, charged with the murder of a negro waiter here, has been postponed. The trial was to have started today, but illness of one of the attorneys in the case caused it to be delayed indefinitely.

NAMES OF YESTERDAY AND TODAY.
When our troops reach the land of "Sonnwetter" and get into action it is possible that the American people will read in the dispatches the names which are familiar to every one who knows anything of the history of his country. In the American army today are a Grant, a Lee, a Sheridan, a Longstreet, a Miles, a Wheeler, a Malcomb, a Henry, a Stanley, a Buckner, a MacArthur, a Sumner, and many other men whose fathers or grandfathers made war history between April, 1861, and April, 1865.

Mr. Ulysses Grant first is a grandson of the man of Appomattox. The two Lees now in the service are nephews of Robert E. Lee. Philip H. Sheridan is a son of "Winchester Twenty-Mile" Sheridan. The Longstreet of the present army is a son of the Confederate general, James Longstreet. The lieutenant colonels, majors and captains of the service who bear the names of Miles, Wheeler, Macomb, Henry, Stanley, Buckner, MacArthur and Sumner are sons of men who won military fame on one side or the other in the Civil war. In addition to these, there is Maj. Thomas J. Christian, who is a grandson of Gen. Stonewall Jackson.

In the ranks of the new national army there will be thousands of men whose fathers or grandfathers fought either for the Stars and Stripes or for the stars and bars. The Union of States has become a union of service. From the Rocky Mountains

Annual Showing of Underwear Fall and Winter Weights for Men, Women and Children

Perhaps you are a discriminating buyer of knit underwear, and again, perhaps you are not—underwear meaning no more to you than the name implies. It is our aim, this week, to show the discriminating the many advantageous improvements in the fall line, and the buyer of "merely underwear" the vast difference between Carters and the ordinary kinds.

We are displaying all the styles, qualities and finishes; a fascinating period of time profitably spent; and we invite you to bring your underwear troubles to us now and we will give you a solution, for we can state with absolute sincerity never has a knitted underwear so nearly approached the perfect as has this season's Carter's Knit Underwear.

FRESNO CAR SERVICE CLOSELY OBSERVED BY COMMITTEE

Reports of Sub-Committees on Car Conservation Show Diligence

An Urgent Appeal Made in Letter to Shippers and Freight Receivers

From reports submitted by the chairman of various sub-committees of the Fresno Car Service Committee, at a meeting held at the Chamber of Commerce headquarters yesterday, it may be gleaned that the committee is doing everything possible to bring down the car shortage in the matter of car conservation.

Car detention formed the basis of an interesting report submitted by A. G. Wilson, chairman of the committee, to which that branch of the work has been assigned. A draft of a letter addressed by his committee to shippers and receivers of freight embraces a plea for co-operation on their part. It asks them to see that there is no delay in the matter of loading and unloading cars—that loading and unloading be "done at once." Also the letter asks that shippers and receivers of freight promptly report any delays in the matter of spotting or removing of cars. It requests as an imperative need that all cars be loaded to their full capacity and includes a summary of 10,000 carloads of freight which must be handled from this district between now and January 1, 1918. The summary by items is as follows:

Items	Tons
Wheat	100,000
Dried peaches	25,000
Other dried fruits	25,000
Canned fruits	40,000
Grain	35,000
Lumber	25,000
Machinery	25,000
Wine and brandies	15,000
Miscellaneous, consisting of beans, honey, sugar, etc.	20,000
Total	280,000

Mr. Wilson closes his plea by pointing out that loading and unloading and intensive loading are the only possible means of conserving the cars necessary to move this vast amount of freight. He declares that the railroad equipment of the United States is inadequate to handle the railroad business on any other basis.

Reports for interurban. W. F. Fuller, of the Fresno Interurban Railway gave a very encouraging report with respect to the handling of freight shipments. He stated that the interurban has been serving the mines and other mines served by his line. He stated that the practice of the mines of holding cars for many days awaiting the completion of a full carload had been stopped. He said his company is now loading to place cars until there is a full carload of ore on the ground ready for immediate loading.

Supplementing his report on the activities of the sub-committee on car conservation and bulk of loading, C. L. McLean, of the Southern Pacific Company, advised that Roy Pulliam of the First National Bank, had stated to him that arrangements could be made with the banks in cases of holidays, especially double holidays, to make delivery of bills of lading regardless of the holiday thus avoiding delay in car movements.

C. G. Fluhr, of the committee on intensive loading stated that the only complaint his committee had found was in connection with incoming cars. This matter being taken up through the local buyers who are being asked to place orders for full capacity carloads.

Maximum Loading. F. N. McPherson of the Southern Pacific Company reported the issuance of a circular letter dealing with increasing the maximum loading of equipment. He also reported that he had found five carloads at the Sanger, where recently with an unloading capacity of two carloads a day the capacity for unloading was limited and by arrangement with the shipper, the California Associated Raisin Company, in the future cars will be sent to the Sanger plant only as fast as they can be handled.

Chairman J. W. Walker of the general committee spoke of potato and onion shipments, stating that the shippers are receiving very favorably the suggestions that these commodities be shipped in box cars. In response to the statement of W. H. Howell that some delays had been experienced in the movement of cars of potatoes from Stockton to Fresno, Mr. Walker said that in his opinion it is just as much a matter of a good shipper as of a good receiver for a shipper to take advantage of the full free time in loading and unloading.

Members present at yesterday's meeting were F. M. Hill, P. J. Seymour, W. H. Howell, J. L. Reichelberger, George Waterman, C. L. McPherson, F. N. McPherson, J. W. Emmons, C. G. Fluhr, G. G. Watson, W. F. Fuller, Charles Campbell, J. C. Fager, G. A. Hatfield and A. F. Bruns. Also as members of the public were present, in addition there were a number of visitors, among the latter being Louis Gundelinger of the Fresno Traffic Association and Thomas Patterson of the Fresno Interurban railway.

SANTA BARBARA HOLDS COUNCIL ELECTION
SANTA BARBARA, Oct. 2.—Santa Barbara today held its first election for the new managerial form of charter. The following were chosen councilmen: Harvey T. Nelson, Charles E. Phoenix, Charles McDermott, Alfred Jensen, and there will have to be a check on the election of the councilmen. The election was held at the city hall, and there were a number of visitors, among the latter being Louis Gundelinger of the Fresno Traffic Association and Thomas Patterson of the Fresno Interurban railway.

ARRESTED IN SOUTH
M. Flaxman, wanted here on a misdemeanor charge, was arrested in Los Angeles yesterday on instructions of Sheriff Thompson and was released on \$250 cash bond. He will appear in court later.

BROTHER AGAINST BROTHER
Tony Demira was arrested yesterday by Sheriff Thompson and was brought before City Justice Graham, where he pleaded not guilty to a charge of disturbing the peace filed by his brother, Joe Demira.

BUY WATER FRANCHISE
Franchise for the water system at Parlier was sold yesterday to the Tiverton Gas and Water Company for \$25. An ordinance covering the action was adopted, the terms of which give the franchisee a term of fifty years.

CALL FOR SHOES DEVELOPS FRAUD

Householders Warned Against Solicitors; Collection for Sat. Only

If you have old shoes to spare for the people overseas, in the rank or in the war-devastated sections, the request of the Red Cross committee that you should not give them to solicitors knocking at your door.

For it has been brought to the attention of the Red Cross authorities that there are some enterprising people in the city who are taking advantage of the request that has been made for old shoes for the needy people of the war fronts.

Yesterday, in one section of the city, one individual with foresight and with an eye to business, knocked at several doors asking for their old shoes for the Red Cross committee.

Several sacks of shoes were thus obtained, the fraud only being brought to the attention of the officers when a man was seen to be carrying a sack in one of the parks. Investigation revealed the fact that the sack contained shoes and that they had been so disposed of to avoid the unpleasant situation in the event of trying to get away with them during the daylight hours.

Plan of Shoe Collection
To safeguard against fraud, the old shoe committee has planned for but the one general collection or offering and this is to be done at the fountain in the "Four" fountain park, and then only during the hours of Saturday, from 10 a. m. to 5 p. m.

For this round-up of old shoes the request is made that only on the day specified, parties wishing to have a part in the old shoe benefaction, are to bring on and their shoes to the park. Those six days, of the committee, and his assistants, are to be in attendance throughout the day, the plan being to build a mountain of shoes that shall be sent to Paris, there to be distributed through Red Cross channels to the needy wherever found. Save your shoes until Saturday and then take or send them to the park.

MINOR PARTIES TO FORM NEW PARTY

If Meeting at Chicago Today Works Out As Planned

CHICAGO, Oct. 2.—A new national party as yet unnamed is expected to receive the first breath of life tomorrow when representatives of the Prohibition party, the Progressive party, the Single Tax group and the Social Democratic party will meet here. The conference will prepare the ground-work and summon a larger conference to be held prior to the 1918 elections at which time the new party will be formally organized. The Prohibition party, the Progressive party, the Single Tax group and the Social Democratic party will meet here. The conference will prepare the ground-work and summon a larger conference to be held prior to the 1918 elections at which time the new party will be formally organized.

The Prohibition party national committee, meeting here today, announced itself ready to drop its identity as a third party and merge in the new organization. The Prohibition committee also decided to concentrate its efforts in 1918 to twenty congressional districts and to raise a campaign fund of \$200,000 for the 1918 campaign. This plan will be discarded if the coalition is formed.

The Prohibition block in the conference probably will be unanimous in favor of the new party. A motion made by H. P. Farris of Missouri, expressing a friendly attitude toward fusion, was adopted without a dissenting vote.

A platform of the platform to be submitted was circulated today. It was written largely by John Spargo, formerly one of the leaders of the Socialist party, it was said. The draft calls for national prohibition, approval of universal suffrage, initiative, referendum and recall, the short ballot, the executive budget and proportional representation.

TEX CUNNINGHAM IS ACQUITTED BY JURY

BAKERSFIELD, Sept. 30.—The jury trying Tex Cunningham, Taft worker for the murder of L. W. Egan, proprietor of the Little Gem restaurant at Taft, on the night of April 11, 1917, brought in a verdict of acquittal at 8:45 o'clock last night. The case went to the jury on yesterday, following the instructions of Superior Judge J. F. Farmer. The case went to trial on September 16, with District Attorney J. R. Dorsey and Deputy D. P. Conway for the state and Emmens & Johnson for the defendant. The defense claimed that Cunningham was not the assassin but that he had started to draw a gun when Cunningham refused to eat a hamburger steak which Cunningham declared was not fit for a dog. The chief witness for the state, Mrs. W. Hill, at first confessed to the murder of Egan but was confronted in court by her real husband, whereupon she admitted that Hill was her right name.

PLAN FINAL HEARING UPON PAYING CLAIMS

PORTERVILLE, Oct. 2.—October 9 has been set by the council as the date for the final hearing on the paying controversy, as far as the city officials are concerned, although there is an excellent chance the matter will yet find its way into the superior court. A proposal from the Federal Construction Company, which has contracted to do the work, to discount the bills a total of 10 percent, has met with favor in some quarters, and the equal amount of opposition. A counter proposal to discount the bills of those who filed protests one-third is also being vigorously fought.

HIGH PRICE FOR SILVER.
AMOIY, China, Oct. 2.—The American dollar is quoted here as worth \$1.38 silver in Chinese coin. This is a drop of one cent since August 2. The normal rate is about \$2.25 silver.

ENROLLMENT WILL TOTAL OVER 1,000

Selma Schools Show Good Increase Over Opening Figures Last Year

SELMA, Oct. 2.—Over 700 pupils are already registered in the grammar schools of this city, and the high school enrollment will be more than 300, thus bringing the total enrollment considerably beyond the thousand mark. The initial enrollment in the grammar schools yesterday was 704, which is about a 5 per cent increase over last year. In addition there are twenty-nine pupils registered in the kindergarten. In addition to these figures, a number were not enrolled because of the rigid enforcement of the law which requires all be vaccinated or of present a satisfactory certificate of vaccination. This, together with the fact that some families are not yet home from vacations, kept more than fifty from registering with the first classes. The total enrollment at the high school was 280, or an increase of almost 15 per cent over last year's registration. Others who will enter a little later for various reasons will bring the total considerably over 900. Athletics or physical culture are compulsory this year, and the football squad turned out for its first work today under G. M. Kilgner. All of this work will be done outside the regular school hours formerly observed here, in order not to interfere with established courses of study.

HANFORD TO HOLD BIG CELEBRATION

Departing of Soldiers to Be Made Occasion of Patriotic Reception

HANFORD, Oct. 2.—Preparations are being made for a monster demonstration to celebrate the departure of the next contingent of forty men from this county who will leave for Camp Lewis Friday. The celebration will begin Thursday night with a big dance and patriotic celebration in Imperial park. All of the drafted men, their friends, relatives and the public will be invited to this celebration in honor of the third contingent of selected men. Patriotic speeches and music will be a feature of the evening, as well as the dance.

FOOD CONSERVATION CAMPAIGN IS PLANNED

COALINGA, Oct. 2.—Coalunga residents are being urged to begin their share of the work under the food conservation campaign, and will work under the women's committee of the county council of defense. The following is the organization to do this work in Coalunga and the other communities: Chairman, Mrs. L. H. Bain; vice-chairman, Mrs. L. S. Stepp; secretary, Mrs. E. Penfield; chairman of home economics, Miss Ames; chairman of class leaders, Mrs. J. C. Cheney.

Production Committee—Claude T. Walker, W. T. Zimmer, James Hutten, Max Shaffrath, C. L. Geer. Ways and Means—O. D. Canaday, Alf Vorster, Gus Fairbanks, Harry Good, A. B. Shaw. Class Leaders—Messdames H. E. McLane, R. R. Hall, Clarence Abbot, T. A. Wright, W. D. Russell, Jas. Wooten, C. C. Downey, J. S. Hunter, Orrin Crispin, J. B. Thompson, C. Walker, E. B. White, Glenway Dilz, R. N. Atmore, P. X. Heinzen, L. G. Gatchell, H. E. Robinson, W. H. Garrison, C. A. Brown, Matt Meyers, Portia Laid, Marvin Kratzer, A. L. Dalsheim, T. E. Dand, Hampton C. C. Good, J. Robertson.

The following representatives of different organizations in the city and field will form a board to assist in any emergency work that may be necessary: Mrs. J. C. Cheney, Mrs. L. S. Stepp, A. E. Webb, Rev. Van Dyke, Todd, Rev. Sinclair Smith, Rev. William Hughes, Rev. Don Allen, Rev. J. Green, Mrs. W. B. Crispin, Mrs. Jas. Thompson, Mrs. Floyd Seavers, Mrs. J. A. Fleischer, Mrs. Marvin Kratzer, J. A. Dean, Mrs. Nevin Walp, Mrs. H. C. Williams, Mrs. W. H. Garrison, Miss Anna Steele, Mr. C. L. Geer.

SUES FOR \$5,000 TO COLLECT UPON NOTE

VISALIA, Oct. 2.—W. P. Rankin, Linderoe realty booster and former principal of the Visalia high school, has been sued by Harry Levinson of San Francisco for \$5,000 to collect a promissory note given in October, 1915. Rankin endeavored to carry through a large real estate project which included the marketing of several thousand acres of Linderoe property, but all attempts failed when the water projects proved unavailing.

SCHOOL ATTENDANCE SHOWS BIG INCREASE

HANFORD, Oct. 2.—Enrollment is proceeding rapidly at both the Hanford high and grammar schools, 230 having been signed up at the former and 260 at the latter. The enrollment at the high school is about the same as last year at this period. In the grammar schools the registration is about 25 per cent higher than was the case at this time last fall. Present indications are that the grammar school will have 1300 pupils this year, or about 100 more than last fall.

DEL REY-RED CROSS TO MEET

DEL REY, Oct. 2.—The military relief committee of the Red Cross will meet at the Wilkinson hall Wednesday at 2 o'clock. All who are interested in the sewing and making of garments are urged to be present.

LONDON, Oct. 2.—An official statement of the British cabinet reports heavy fighting on the Lini and Meis (German East Africa) about forty miles southwest of Lindi. British columns are making good progress in the difficult country against the stubborn resistance of the enemy, whose strong round attacks have been repulsed.

The Wonder

A Store of Women's Fashions

New Today!

In the French Room

A Fur Coat of More Than Usual Magnificence

Knitted Coats

Of Fibre Silk 14.95 to 19.75

—Coats of such quality and beauty, that to name them "Sweaters" would detract from their smartness and style. The various colors and combinations of color that are fashionable, together with the luxurious fabric, add to the charm of these sport coats.

Special New Lot

Fine Winter Suits

1975

We direct especial attention to the remarkable quality, the styles and fine tailoring of these suits which are upon basis of equality with suits that would in many stores, be marked at very much higher prices.

1975

THE WORLD WAR

WASHINGTON, Oct. 2.—General Pershing called the War department today that Corporal Ernest P. Hart, signal corps, was killed behind the front in France yesterday by the premature discharge of a hand grenade in practice. Corporal Hart's father, B. W. Hart, lives at Oxford, N. C.

LONDON, Oct. 2.—The British casualties reported for the week ending today numbered 21,718, divided as follows: Killed or died of wounds, officers, 151; men, 3773. Wounded or missing, officers, 431; men, 16,724.

WASHINGTON, Oct. 2.—Enlisted men of the various branches of the army are made eligible for temporary appointments as commissioned officers of the Quartermaster corps under regulations issued today by the War department. Commanding officers are authorized to make the appointments.

LONDON, Oct. 2.—A serious fire and explosion has occurred in a munition factory in the north of England, according to an official report. Much damage was done to the factory but thus far there have been no deaths.

PARIS, Oct. 2.—It is announced that the French government will not grant passports to French delegates to the recent Socialist conference in London. The question of the transfer to a neutral city of the headquarters of the International Labor Union, which now is in Berlin, was to be discussed at the Bern meeting.

LONDON, Oct. 2.—An official statement issued today on the aerial operations says: "In the air raids of the last eight days all of our plots have landed safely."

WASHINGTON, Oct. 2.—An appropriation of \$10,000,000 for the payment of family allowances for enlistment in active service in the army, navy and marine corps is proposed in a bill introduced today by Representative Barker of California.

WASHINGTON, Oct. 2.—Army regulations issued today suspend the requirement that field officers of the mobile army field with troops provide their own mounts. Wherever officers of the national guard, national army or officers reserve, corps are assigned to duty which requires them to be mounted, suitable horses will be supplied by the quartermaster's corps.

LONDON, Oct. 2.—The Norwegian legation announces that during September nineteen Norwegian merchant ships of an aggregate tonnage of 30,800 were lost. Twenty Norwegian seamen were killed and seventeen others are reported missing.

SAN FRANCISCO, Oct. 2.—Colonel Merwin Adams, retired, of Berkeley, Md., has been ordered into active service as department surgeon for the western department, according to advice received by Major General Arthur Murray today from Washington. Colonel Guy L. Eddle, who has been acting surgeon, will remain in command of the Letterman General Hospital at the Presidio.

LONDON, Oct. 2.—The special volunteer policemen who have been assisting the regular police since the beginning of the war in emergencies, are receiving sharpshooters for protection during air raids. These helmets are similar to those worn in the trenches.

LONDON, Oct. 2.—Turkish official statement received here today says with reference to the operations at Mamula, Mesopotamia: "Early Friday the enemy bombarded for several hours positions already evacuated and afterwards launched an attack with six battalions of infantry and one of cavalry. The fighting continued. Four enemy airplanes were brought down."

RIO JANEIRO, Oct. 2.—A Brazilian tugboat today picked up off the coast a whaleboat with fourteen members of the crew of the French bark Hauritz which was burned at sea September 20, after an explosion due to spontaneous combustion, in her cargo of coal. Another boat, containing the captain of the bark and other members of the crew is missing.

A Wonderful Large Selection Of Velvet Hats In Smart Winter Modes

—The vogue for velvet in rich, dark colorings is almost unprecedented—whether the hat is large or small, tailored or dressy; soft or stiff, the material is usually velvet, and as its appearance depends to a great degree upon the quality—we especially recommend the better grades. THE WONDER shows them at 6.95, 7.95, 8.95, 10 and 12.50.

ACTRESS TELLS SECRET

A Well Known Actress Tells How She Darkened Her Gray Hair With a Simple Home Made Mixture

Miss Blanche Rose, a well known actress, who darkened her gray hair with a simple preparation which she mixed at home, in a recent interview at Chicago, Ill., made the following statement: "Any lady or gentleman can darken their gray hair and make it soft and glossy with this simple recipe, which they can mix at home. To a half pint of water add 1 oz. of bay rum, a small box of Raxo Compound, and 1/2 oz. of glycerine. These ingredients can be bought at any drug store at very little cost. Apply to the hair twice a week until it becomes the required shade. This will make a gray haired person look 20 years younger. It makes the hair soft and glossy, is not sticky or greasy and does not run off."

WANT INCREASE IN IRRIGATION RATES

Canal Company Wants All Contracts for 62½ Cents Per Acre

Petition of the Fresno Canal & Land Company to bring all its irrigation rates to 62½ cents per acre, the standard rate charged by the company, was heard yesterday by Max Thelen, president of the California State Railroad Commission, in a morning session at the court house. Land in the vicinity of Parlier, 3,848 acres in all, is involved in the petition filed by the land company. Evidence that the land owners have been paying various rates and that some of the contracts date back to 1875 was given yesterday at the hearing. Another session will be held at which the holders of free water rights will be heard. The canal company requests that all water right contracts be increased to read 62½ cents per acre up to 1921, when all of the contracts will expire. Some ranchers are objecting to the increase in rates and maintain that their work in raising and maintaining the canal was payment for location of water right.

UNIONS AGAINST OUTSIDE BUYING

Trades Council Asks That Contractors Purchase in Fresno

The Fresno Building Trades Council hopes to enlist the support of Fresno business institutions in a movement to popularize the purchase of building material at home, and to this end passed a resolution at its regular Monday night meeting, protesting against the action of many contractors and builders in going outside to buy, and urging local business interests to do all in their power to discourage contractors and builders in this. The resolution declares that full supplies of building material are carried here.

The resolution in full follows: "Whereas, It has repeatedly been called to our attention that contractors and others building in Fresno have been in the past and now are in the habit of sending to other places for their mill work, plumbing, carpentry, and wiring and other building supplies, and

"Whereas, The mills, merchants and dealers of Fresno, have full supplies of material for building and have competent mechanics to do all the work, and

"Whereas, The sending away for such supplies and mill work not only takes the money out of circulation in the city, and deprives our labor of part of the work that rightfully belongs to it, but also deprives the business of business, and

"And believing that such a state of affairs is detrimental to the best interests of all in our city; therefore, be it

"Resolved, That this Building Trades Council present a copy of these resolutions to each of the business organizations of Fresno and request them for the common good of all to co-operate with us in an effort to keep this business at home, where it rightfully belongs. First, by using their full influence to discourage contractors and others building from sending away for material.

"To try wherever possible to have a clause incorporated in future contracts requiring material to be purchased in Fresno when it can be done.

"And in return we agree to use our utmost influence to have organized labor patronize only home merchants and home markets to the exclusion of catalogue houses, and further, we agree to favor those in trade who use their influence to carry out the content of the above resolutions.

DEATHS

URAZOQUI—In Fresno City, October 2, 1917, Manuel Urazoqui, a native of Spain, aged 32 years.

The funeral service will leave the chapel of Stephen B. Beaumont tomorrow (Thursday) morning at 9:30 o'clock, thence to St. Alphonsus Catholic church, arriving there at 9 o'clock, where mass will be celebrated for the repose of his soul. Interment, Calvary cemetery, Fresno City. Friends and acquaintances are respectfully invited to attend.

Smith—In Fresno, Calif., October 2, 1917, John Smith, for many years a resident of Clovis.

Funeral services will be held this Wednesday afternoon at 2 o'clock from the chapel of Stephen B. Beaumont. The friends are invited. The Rev. Geo. J. Sevier will conduct the services. Interment in Mt. View cemetery, this city.

CEDERQUIST—In a local sanitarium, October 2, 1917, Grace Cederquist, beloved daughter of Mr. and Mrs. D. E. Cederquist of Rosam, sister of Floyd M. Cederquist and granddaughter of Mr. and Mrs. J. Mitchell and Mr. and Mrs. C. V. Cederquist of Fresno, a native of California and 7 months and 25 days of age.

Funeral services, to which friends are invited, will be held at the funeral parlors of the Bent-Powell Co., 1425 Van Ness avenue, this Wednesday at 2:30 p. m., with Rev. O. W. Ostrom of Easton officiating. Interment will be in Washington Colony cemetery.

SOCIETY

Mr. and Mrs. Festus Lewis entertained a congenial group of friends at dinner last night at their attractive country place near Fowler. The screened living porch was the setting for the dinner, and bright flowers were used to make festive the table. The latter evening was devoted to informal pleasures.

Among those who motored out for the occasion were Mr. and Mrs. L. O. Stephens, Dr. and Mrs. J. C. Cooper, Mr. and Mrs. W. O. Miles, Mr. and Mrs. G. L. Varlow, Judge and Mrs. M. K. Harris, Judge and Mrs. W. D. Crichton, Mr. and Mrs. J. J. Bullard.

Mr. and Mrs. Ira Bennett and their daughter, Miss Harriett Bennett, leave today for San Francisco to spend a month.

Mrs. Harry B. Gregory and children are expected to return next week from Indiana, where they have been enjoying a most delightful family vacation. Among those included in the interesting group were Miss Grace Ven Studdiford, known locally, not only for her professional appearances here in several musical comedies, but also because of her several visits with her sister here.

Donald Forsyth, a member of the Fresno Machine Gun Company, stationed at Camp Kearney, is at home on a six days' furlough.

Mr. and Mrs. Emil Kehrlein, Jr., leave today for Los Angeles, where they are to make their home.

Mrs. B. A. Walcott left last night for San Francisco for a short outing.

One of the numerous congenial little knitting classes which are features of neighborhood social life is that which is sponsored by Mrs. L. P. Swift. The group will resume its meetings this afternoon at the home of Mrs. Swift after a week's interlude, because of conflicting fair interests.

Mrs. Charles Torrance entertained a number of friends at dinner at the Hotel Fresno on Monday evening, complimenting her brother, Emile E. Watson of Columbus, Ohio, who enjoyed a few days' sojourn in town. Mr. Watson is secretary for the Industrial com-

munion of Ohio, and has been making a tour of the west. Upon his arrival in San Francisco from Lake Washington, where he has been doing research work, Mrs. Torrance joined him there and enjoyed a short outing in the city.

At a delightfully informal affair on Monday night, Mrs. J. J. Reeder entertained in compliment to Miss Athena Wright, whose marriage to Henry J. Miller is to be solemnized in the near future. A miscellaneous show was featured and some dainty gifts were presented to the guest of honor. Among those who shared in the pleasures of the evening were Misses Edith Young, Nell Ireland, Julia Crowder, Clara Kett, Edna Burns, Marian Lewis, Isabel Mott, Rose Miller, Benetrio Gray, Eva Kates, Christina Pichis, Nina Mayne, Nan Wallace, Ella Hume, Dr. Eva Still Wallace, Mrs. George Rollins, Mrs. E. H. Winkler, Mrs. H. D. Lloyd, Mrs. J. L. Reeder.

Mrs. W. J. Cleary and Mrs. J. W. Gearhart returned on Monday night from San Francisco, where they have been enjoying an extended vacation.

Mrs. Louis Kinetel and Miss Nina Kinetel returned last night from San Francisco, where they have been spending some weeks, following an earlier summer trip by motor to Crater Lake and other points north.

Mrs. H. W. Wrightson will entertain the members of her W. C. T. U. Circle on Friday afternoon at the home of Mrs. Clara Baker in Temperance Colony.

At an early morning nuptial service, this morning, Miss Epat Mae Chin is to become the bride of Howard Nelson, the ceremony to be celebrated at the home of the bride's parents, in Webster's Colony at 5 o'clock. The guests will be limited to the immediate relatives and friends of the couple, and the ceremony is to be performed by Rev. Duncan Wallace.

The bride will wear white satin with the conventional tulle veil and will carry bride's roses arranged in a shower. Miss Viola Dunn, her only attendant will wear pink Georgette crepe and will carry pink roses. The groom

Lillian Russell's Beauty Talks

WOMEN WHO CAN MANAGE.
(Copyright, 1917, by Lillian Russell.)
Why is it that some women possess executive ability and others do not? From the time the cavewoman was first placed in the position of housekeeper of the rocky hole where she and her mate made their home, women have been trying to cultivate that ability. There are few who do not have some duties or responsibilities, from the day the little sister learns to put a pair of knitted booties on little brother's feet, to the time she takes the president's chair in a club, a charitable organization—or a church society.

Women like to "manage" things. They like to be consulted, to decide upon matters of importance, to advise and to direct. Yet few women have the gift of executive talent; few women can control a large number of other women—few, indeed, display much thought in the management of their own home affairs.

Learning to be an executive is hard work. There are some people who seem to be born with the gift. "Mrs. So-and-so," we say, "is such an excellent executive. She is president of two clubs and an officer in five. She can always run a meeting."

And yet this woman is not always popular among her fellow club members. She may have a great deal of personality—still more aggressiveness and a certain will to be attended by Beverly Cullen as hostess. The bride party will take their places in a bower of greenery and roses, the wedding march to be played by Miss Altus Cain.

After a wedding breakfast, the bride and groom are to go south, by motor, on a honeymoon tour.

At a beautifully appointed dinner given on Monday, Mr. and Mrs. D. A. Swift celebrated their golden wedding anniversary at their country home in Temperance Colony. Yellow chrysanthemums, symbolized the occasion and were used effectively in the decorations of the living room and the dining table, where were grouped a large number of friends and relatives, who assisted in making memorable the happy occasion. Some lovely gifts showered on the bride and groom of fifty years are material reminders of the celebration.

Among those who participated in the event were Dr. and Mrs. Harvey Deere and daughter, Mr. and Mrs. J. E. Beall, Mr. and Mrs. Curtis Beall, Mr. and Mrs. Charles J. Beall, Mr. and Mrs. J. W. Beall of Landon, Mr. and Mrs. J. H. Beall of Newman, Mr. and Mrs. Lee S. Beall of Clovis, Mr. and Mrs. Z. D. Beall of Lemoore, Mr. and Mrs. George Beall, Mrs. Jennie E. Beall of Landon, Mrs. Zola Beall-Landon of Landon, Mrs. Collier Beall, Mr. and Mrs. John D. Morgan, Sr. Dr. and Mrs. John Morgan, Mrs. Axel Anderson of Temperance Colony, Mr. and Mrs. Fred Anderson, Mr. and Mrs. Ed Anderson, Mr. and Mrs. Elmer Olsen and daughter, Mr. and Mrs. E. J. Smith, Mrs. C. H. Topeka, Kansas, and J. M. Swift.

Announcement is made of the marriage of Miss Geraldine Gray, daughter of Mr. and Mrs. John E. Gray, and Earl Adams, son of Mrs. Ida Adams, the ceremony being celebrated on Monday in San Francisco. Although the romance had been suspected by intimate friends of the two, the wedding announcement will come as a surprise, as was intended by the bride. After a short honeymoon sojourn in the Bay cities, they will return to Fresno to reside, the groom being in business here.

The Fresno Relief Society held the first of the season's meetings yesterday at the Young Women's Christian Association building, where the activities of the past summer. Tentative plans for the winter were discussed and reports of officers were featured.

U. F. Adams of Chicago, arrived last night for a visit with his brothers, D. H. Adams and A. H. Adams. Mr. Adams left Fresno 25 years ago for the eastern metropolis.

In an attractively compiled prospectus, the Fresno Musical Club Executive Board is announcing the year's program to its members and prospective members. The scheduled list of artists and the dates of their appearance being as follows:

Margaret Matzenauer, Contralto—October 12.
Cherniavsky Trio, Chamber music—November 5.
Leopold Godowsky, Pianist—Jan. 14.
Reinold Werrenath, Baritone—January 28.
Efrem Zimbalist, Violinist—Feb. 18.
Theo Kalle, Tenor—March 12.
Frieda Hempel, Coloratura Soprano—March 19.

The Fraternal Circle of St. Paul's M. E. church will meet this afternoon at the home of Mrs. J. M. Crawford on Calaveras avenue.

MANY PAPERS FILED IN ASSESSMENT SUITS
Many papers were filed in the Fowler street assessment lien suits yesterday, among them new complaints against certain citizens owning property affected by the street improvement proceedings against other property owners were also filed, as well as demurrers and motions to strike out by the Fowler Design Publishing Company, now involved in the libel suit instituted by Baxter and Schultz.

William Jason and others have sought a restraining order against Baxter and Schultz to prevent them from filing further complaints to foreclose. That case was submitted to Judge George E. Church on briefs.

POSTPONE HEARING ON WATER DISTRICT
Upon the representation of attorneys and the Trenchard company, the hearing which had been scheduled for today's session of the board of supervisors, the matter will go over for another 30 days. Within that time the state engineer will file his report upon which the hearing is to be based. The engineer is allowed 60 days from the time of the filing of the petition in which to file his report. Thirty days elapsed before the hearing was first set and with the second extension granted yesterday, the time is definitely fixed for the November session of the board.

NEW FLAG ADORNS COURTHOUSE PARK
With the beauty of the flag itself as the sole factor in the ceremony of the flag raising at the courthouse yesterday, a new 10x15 foot banner is now floating from the flagstaff in front of the county building. County Purchasing Agent Russell Usher unfolded the flag in his office about 4 o'clock and then secured the services of the court-house caretakers to give it its place. A group of very small boys watched the colors ascend with varying emotions as they repeated their pledge of allegiance recently renewed with the opening of school.

A BEAUTIFUL COMPLEXION
Can be made with S. H. Beautifier. Price 35c only at Smith Bros. Drug Store.

knack in parliamentary law. With these she is able to control and control. Woman follows her lead—and hate her because she can take the lead. She is not a good executive.

A woman with true executive ability is not domineering. She does not attempt to "manage" things. But when she sees that she can help, whether an organization or a friend needs her judgment, she will tactfully suggest what should be done. She will not antagonize by thrusting herself to the fore. She will wait until others place her there.

I know a woman with such ability. In organizations she never accepts an office of great power. Yet she is always ready and willing to serve in any capacity where she is needed. Her suggestions are rare, but they are always clear and valuable. She never "manages," never "meddles" and never seeks the "limelight," yet her personality is felt as keenly as though she were in personal touch with every fellow member.

She has many pursuits, but she differentiates between scattering her energies and distributes them. A woman who scatters her talents and time over a vast number of social details, never takes time to concentrate upon one object, has not even the roots of executive power. A woman who knows how to distribute her forces will be helpful in any circle.

If I went into this woman's home, I should expect to find her kitchen spotless and well ordered, her store would be placed near the cupboard and both would be near the sink, for good management decrees that there shall not be too many steps between the three most important things in a kitchen. Her dining-room, I am sure, is always neat. A careful housekeeper sees to it that her table linen is clean and fresh and the dining-room well swept and aired. And I should expect to find her writing desk unlike that of most women, with its various articles arranged in business-like manner, with well-kept files of her accounts and records.

This is true executive ability—to be able to manage even the daily tasks of a housekeeper in a logical manner.

Y. M. C. A. TO HAVE OPEN HOUSE NIGHT

Repairs on Building Are Completed; Athletic Classes Begin

"Open house" night planned for tomorrow night at the Y. M. C. A. has been postponed to Tuesday evening, October 9. The postponement was made on account of the farewell reception to the draft contingent occurring on the same night. The open house night there will be a program of athletic events. Golden Long, physical director, will also show pictures of the Philippine Islands, illustrating the work of the Y. M. C. A. The building will be open for exhibition and visitors will be shown every room. The repairs are now completed.

Begins the athletic events there will be a musical program in the gymnasium. The directors invited all who are interested in Y. M. C. A. work to be present.

Gymnasium classes begin today. At 4 o'clock the boys and junior class will start their gymnasium work. All junior members are urged to be present this is the first open class of the fall season. In the evening, at 6:45, the business men meet for gymnasium work and evening.

On Friday, at 4 o'clock the high school intermediate class begins its gymnasium work and on Saturday morning the cadets and juniors have their class.

The directors are desirous that all members should start with the beginning of the classes.

Robert E. Law, the new office and membership secretary of the Y. M. C. A., arrived in Fresno last night from Pasadena, and will begin his duties at the association today.

Law succeeds Gottfried Oleson, who leaves for American Lake with the local draft contingent on Friday.

When the DUO ART Plays It Is the Artist That Plays

The Playing of the Duo Art Reproducing Piano is so faithful to the artist's performance that it cannot be distinguished from his actual playing. Because it is the artist himself—he made the Duo Art Roll. After making it, he listened to his own playing and corrected any errors he might have made. The playing is so realistic that you actually feel the presence and personality of the artist.

We want every lover of music to hear this wonderful instrument. We want you to come in and have the wonders of the Duo Art demonstrated. We want you to see if you can tell whether the performance you hear is that of the pianist in person or not. (Our Player Music Customers should ask to have the Duo Art played for them—a Duo Art Piano is on our Seventh Floor for that purpose.)

Remember, the Duo Art is made only in the Steinway, Weber, Steck and Stroud models (Stroud upright only) and is to be had on the Pacific Coast only at the stores of Sherman, Clay & Co.

Dealers in Steinway and other Pianos, Pianola Pianos, Victrolas and Records, Player Music.

Colorless faces often show the absence of iron in the blood.

Carter's Iron Pills will help this condition.

NIGHT CLASSES ARE BEING ORGANIZED IN SCHOOLS

Attendance Steadily Increases in High and Elementary Institutions

Expert Coming to Work Out Citizenship Teaching Problem Here

Fresno's schools continue to show a steady daily increase of attendance. Yesterday brought forth an additional enrollment of nearly one hundred pupils, according to figures compiled for the various schools last evening by Jerome O. Cross, city superintendent of schools. He reports a total of 7,523 pupils on the roster of the city's high and elementary schools.

Mr. Cross is busily engaged on two objectives at present. He finds it necessary to adjust the assignment of pupils and teachers in a number of schools to relieve crowded school rooms. This problem he is working out and expects speedily to solve it. Another question which is deeply interesting Mr. Cross is the organization of the high and elementary night schools, the first sessions of which were held Monday evening.

With respect to the night school work Mr. Cross is proceeding on the theory that the schools belong to the community and should be used as intensively as possible by everyone who desires to advance along educational lines. The old idea that the schools are intended to deal only with the education of children between the ages of six and fourteen years has been relegated to the discard and Mr. Cross says that the responsibility has widened to embrace children of the kindergarten age, and on up into the adult ages.

In the Fresno night schools a useful course of study is offered for those who have a desire to increase their education. Mr. Cross, announced definitely yesterday the nights, hours and general instructions to the public. Classes open to adults.

The night school at the Fresno High school meets on Monday, Wednesday and Friday evenings, between the hours of 7 and 9 o'clock. The Spanish, English and Commercial subjects will be taught on the third floor of the new annex on the Stanislaus street front. The automobile and shop work

Y. M. C. A. BEGINS WORK FOR WINTER

Reception for Students and Class Activities Program for Week

Work for the winter season is now getting under way at the Y. W. C. A. A class in millinery, conducted by Mrs. Julia Becker, a reception this afternoon to the students of Heald's business college, the starting of a French club for members and others, and the opening of the vespers services on Sunday, are some of the activities of the Y. W. C. A. inaugurated this week.

An informal reception and educational demonstration in honor of the students of Heald's business college will be given this afternoon from 4 to 6 o'clock at the Y. W. C. A. rooms. Mrs. J. H. Pettis, chairman of the educational committee, will act as hostess, and will be assisted by the girls of the college resident at the association house. A talk on the patriotic program of the association for the coming year will be given by Miss Maude Wolff, and Miss Alice Lehmann, physical director, will speak on the necessity of physical preparedness. A musical program arranged by the educational committee will also form part of the entertainment.

Millinery classes conducted by Mrs. Julia Becker began last night at 7:30 in the association rooms. The classes will be continued on Tuesday and Friday of each week. The instruction given by Mrs. Becker will be of a practical nature, and certificates will be given to girls at the end of the course on their showing proficiency.

For students of French and those interested in the French language and literature, a French club is to be started at the association. The club will appeal especially to teachers, but all who are interested are invited to join, whether members of the association or not.

On Sunday afternoon the vespers services at the association will be resumed. The Camp Warner club will have charge of the service. At the opening meeting Miss Julia Sayre will talk on the work of the Women's National Council of Defense, and will also give a resume of the work of the Astor conference. The meeting will be held at 6 o'clock.

will be taught in the rear of the building on the Elm street side.

There has been a great demand for Spanish. Any subject, however, for which a class of twenty-five registers will be taught. It is hoped that classes in cooking, sewing and millinery may be organized.

SHARE OF MARKET PROFITS WANTED BY COUNTY

Committee Appointed to Confer With City Officials

Money to Be Used for Improving Court-House Park

That the county wishes to share in the profits from the free market conducted by the city of Fresno on ground belonging to the county, was brought out in discussion at the supervisors' session yesterday. Robert Luchead and J. B. Johnson, supervisors from districts two and three, were named as a committee to confer with the city trustees at their next regular meeting. It has reached the ears of the supervisors that a fund of \$11,000 has accumulated in the city coffers representing the returns from the license taxes collected. To secure a share of that fund and use it in proposed improvements in the court house park will be the mission of the committee. With the growing popularity of the court house park the establishment of more drinking fountains is a crying need, according to the supervisors. They also wish to replace the old fountain in use now. A rest room and comfort station is also a contemplated improvement.

FACULTY CLUB IS TO AID RED CROSS

Old Shoe Day Friday at Normal School Is First Step

Reinforcement for the Red Cross work in Fresno, has developed in the form of a vigorous movement at the normal school looking toward various activities along the line of war relief work.

With the re-organization of the Faculty Club at the normal school yesterday immediate steps were taken to lend assistance along the line of giving succor to soldiers of the great war and relief to those stricken as one of its dire results.

In this connection the Faculty Club decided to form a Junior Red Cross chapter, comprising both normal and training school students and the details of such an organization are now being worked out.

Immediate help will be given the Red Cross organization by active participation in its old shoe campaign. All day Friday boxes will be found in the normal school building and into these the students and teachers are asked to deposit their old shoes. The only requirement is that pairs be tied together. The Faculty Club will see that the donations are delivered to the proper place for further distribution.

Another activity which the Faculty Club will take up is a second campaign for gathering old newspapers to sell for the benefit of the Red Cross.

The club has started off with high hopes for an active and interesting term. At the initial meeting reports held over from last June were read and business of the present term briefly discussed.

One of the first entertainment activities of the club will take the form of a faculty picnic which takes place today. The members, thirty in number, will gather at Fresno Beach for the snapper meal and a pleasant evening following.

ACTIVITIES OF HI SCHOOL SOON UP

Organization for Instruction Taking First Place in Principal's Mind

Organization for instruction is at present the chief concern of Principal Will O. Smith of the Fresno high school. For this reason the usual activities, such as class organization, planning, athletics and other decorations from regular school work, have not been taken up. Nor will they for perhaps a week.

Mr. Smith stated yesterday that the change of program with regard to hours of study and periods for recitation in making the task of organization for instruction one which needs careful attention and as this is the primary object of the high school the activities have been put aside for a few days until the classes get under way with their regular work.

The registration at the close of the term, rather than at the beginning, a plan adopted by Mr. Smith's predecessor, Professor Liddick, a plan of which Mr. Smith highly approves, is responsible for the changes of program and the consequent delay in the opening of activities of the classes and student body.

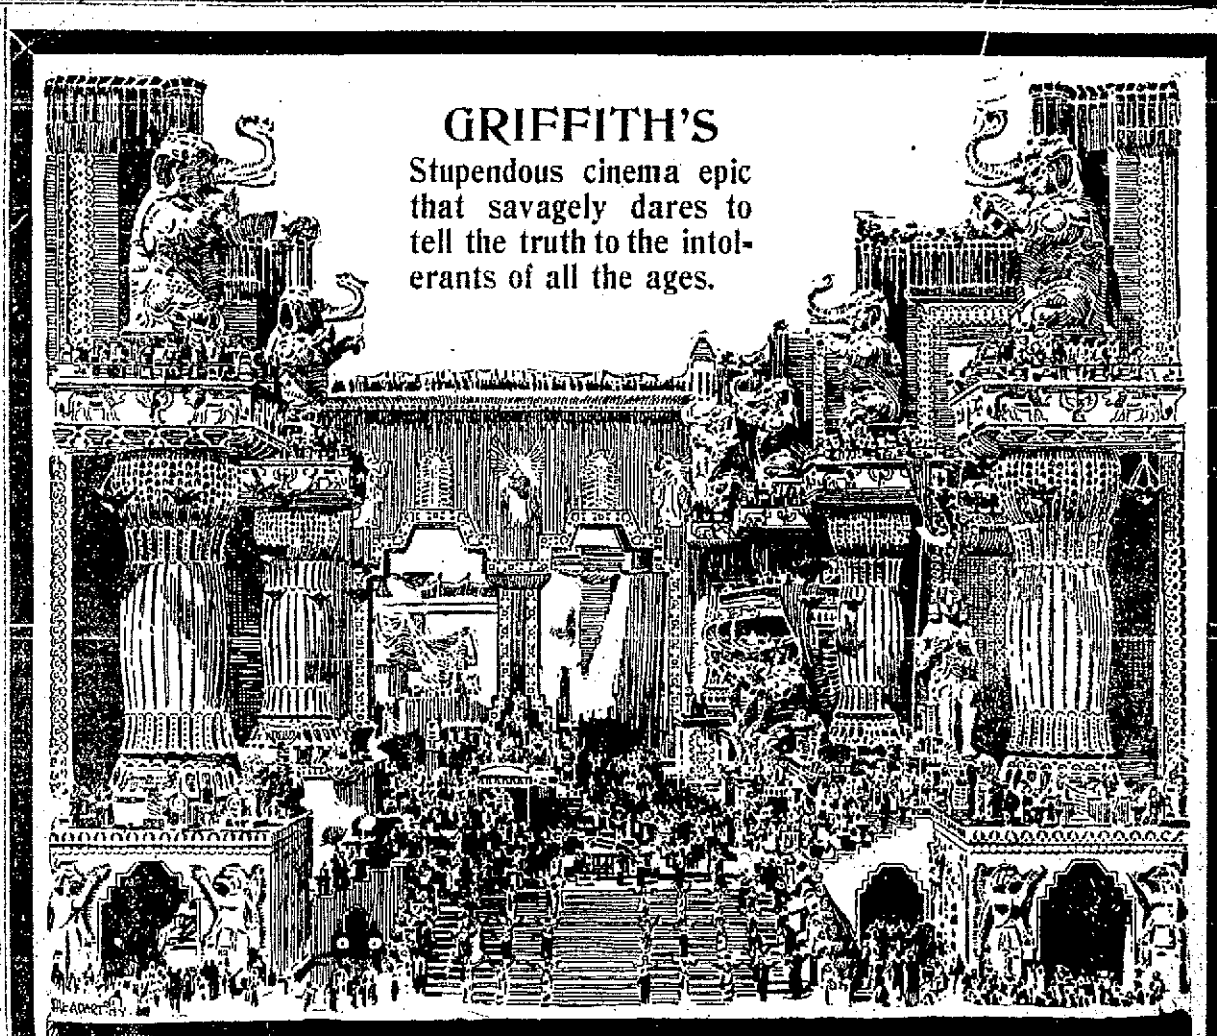

These courses are not intended for pupils of the school, but for adults. Now will any fees or certificates be asked of those who attend.

To Aid Citizenship

In connection with the night school work of the elementary schools, Mr. Cross stated last evening that special attention would be paid to instruction which will benefit those who are seeking to become citizens of the United States. The teaching of civics and kindred subjects will be made a strong point in the course planned for such pupils. In this respect the schools wish to co-operate as fully as possible with the United States government, especially with the naturalization department.

Thereof, the elementary night school is being conducted at the Edison school, at Mono and H streets. To the end that this course in citizenship shall be well established the assistance of Miss Ethel Richardson, an expert of the bureau of immigration and naturalization, has been secured. An invitation to spend some time in Fresno helping work out the problem. She is expected to arrive any day to take up the work.

Concerning registration for the night schools Mr. Cross announced that pupils may enroll in classes at any time, but that the most convenient time would be on the evenings the classes meet, Monday, Wednesday and Friday evenings. He stated that registration would be handled in the

Exemption on appeal was denied Carl S. Camperson, Ralph H. Bass, C. M. Lewis, Frederick P. Peltz, Rolfe T. Argenti, L. Giovannetti, Lou Howard.
William C. Hamilton has been discharged by the lower board.
Industrial exemption was denied Floyd M. Goodman, Bruce R. McCarty, Lawrence L. Long, James A. Bowman, Herman Piper.
Exemption on appeal was granted temporarily to Frank J. Wilson, Albin H. Johnson, Lovell D. Referred, Cecil B. O'Gulim, Maurice A. Lovey, Horace

CITY DRAFT MAN REPORTS ON TRIP

Gives Information for Men Who Will Make Up Next Division

Fresno City Exemption Board yesterday received a letter from C. H. Hansen, a member of the city contingent, who was in charge of the boys who left here two weeks ago.

The letter follows:

"Fresno's 40 per cent arrived at Camp Lewis Sunday afternoon at 3:15, and were met by the officers and escorted to the registration point and checked in in double-quick time, and were in our barracks less than forty-five minutes after arrival.

"The trip was a very enjoyable one for all of us, and everybody had a good time and plenty to eat, although the sleeping arrangements were not as good as they might have been, nevertheless, we made the best of it, and all were feeling fine when we arrived.

"The boys are taking up their work in the proper spirit and look forward to early advancement. The non-coms for our company will be appointed from our own boys, and everybody is looking forward to being an officer in the near future.

"You might suggest to the next quota that all they need to bring along is an old pair of shoes, heavy underwear, handkerchiefs and a flannel shirt or two. No overcoats are needed as the weather is very good. Face towels, tooth brushes, comb and brush and soap are issued to each man upon arrival. Shaving outfit, of course, should be brought along.

"Today the boys were all taken over and given a bath, which they all enjoyed, although the water was ice-cold.

"We received the first Fresno paper tonight, and everybody is trying to read it at once. The boys wish to thank the people of Fresno and the various committees for the wonderful send-off they gave us.

"Our company is Company 23, Sixth Training Battalion, 16th Depot Brigade, Camp Lewis, American Lake, Washington."

E. Peeler, Jesse R. M. Jones, Charles A. Haggen, John A. Jackson, Arthur Johnson, Walter S. Hachaway, Edward W. Bar, James E. Atkinson, George R. Burke, Arthur York, Chester A. Bright, Robert A. Jackson.

Temporary industrial discharge was given William H. Nicholson to January 1, 1918.

Fresno City Division
Exemption on appeal was denied Olaf F. Shouse, Theo. Miller, Chester A. Packard.

Temporary industrial discharge was granted Lester H. Eastlin.

William Robinson was discharged by the local board after examination.

Chester A. Packard was denied agricultural exemption.

ADDITION TO ARMY RECRUITING STAFF

Four Enlistments Go to Various Engineer Companies

Fresno's reputation as a recruiting station has received practical recognition by the authorities in the shape of the appointment of an additional recruiting officer to the staff at the recruiting station at 1053 I street. Private Tate F. Miller is the man appointed, and he has been in the duties assigned since his arrival here. The good results from the Fresno station have already been recognized by headquarters. Four men were enlisted yesterday.

The enlisted men were: Melvin Sisson, Visalia, 23rd Engineers; Frank Kelly, Fresno, 20th Engineers; George F. Rodgers, Selma, 23rd Engineers; Edward P. Ward, Fresno, formerly member of the fire department, Engineers, railroad battalion.

TULARE CONTINGENT WILL LEAVE TODAY

VISALIA, Oct. 2.—Local Exemption Board No. 1 of Tulare county met this afternoon with approximately 38 men from the district who will leave tomorrow morning for Camp Lewis, American Lake, Washington, as the third increment of 10 per cent from this division. Ten more appeared as alternates to be called upon in event the entire 83 scheduled to go are not at hand.

Several of the men did not appear. Several has been unable, as in previous cases, to get mail to some of the men and unless they appear at the train tomorrow they will be placed down as slackers and the government officials set upon their trail.

Visalians will give the departing boys from this district together with the 73 from the Porterville district, who will likewise leave from Visalia as they have done before, a rousing send off at the depot at train time.

FIVE ACCEPTED FOR DRAFT ARMY

Five men were examined yesterday at the courthouse for military service and all passed. No examinations will be given Friday because of the departure of the drafted men. The following were examined yesterday:

Maney Coleman, No. 2, accepted.
Mark C. Hinchman, Carroll County, Arkansas, accepted.
Christopher Thyssen, No. 1, accepted.
Ira A. Brown, Riverside county, accepted.
Rudolph Troms, No. 1, accepted.

FRESNO BUREAU FILLS 587 JOBS

Local Bureau Second in State for Positions Filled in Week

Jobs filled through the employment bureau of the state for the week ending September 22, as reported by the state superintendent of bureaus, amounted to a total of 3721 for the state. Of this total the amount contributed by Fresno is 587, which places the city again second on the list for the number of positions filled through the labor bureau branch located here.

Following are the numbers reported by the five state labor bureaus in the state: San Francisco 613; Sacramento 397; Oakland 354; Fresno 587; and Los Angeles 510.

The Fresno branch was started on August 23 of this year, and since that date 2769 jobs have been filled by the local office up to September 22.

SEMI-WEEKLY DANCES TO UNIFORM GUARDS

Plans for financing the Fresno Battalion of the Home Guard of California includes a series of balls to be given Wednesday and Saturday nights at the Armory, 928 E. St.

Some have a pocketful of tickets out of the thousand which has been put on sale for the first dance to be given next Saturday. The ticket selling is backed by the Merchants Association, Commercial Club, Rotary Club and the University Club. A fine "band" of choice has been secured for the parties and the floor is in the best of conditions.

The battalion is now fully organized consisting of three companies fully officered. The next demand is for uniforms which are to be purchased out of the proceeds of the dances. For this reason the financial support of the people of Fresno is urged and everybody is invited to be present at the first ball and the succeeding ones in the series.

SELMANS TO GIVE STREET CARNIVAL

SELMAS, Oct. 2.—A street carnival, under the auspices of the Selma band, will open here this (Wednesday) evening and continue throughout the week. Concessions have been given the band by the city trustees.

FORTUNE IN BEANS IF GROWER HAS BEAN ACRES

Jump in Prices Sufficient
to Arouse Interest of
Land Owners

Movement Among Farm- ers to Make Product of Big Value to County

Just at a time when the question of the practicability of growing beans to any great extent in the county of Fresno is foremost in the minds of many growers, the announcement is made that, so far as the market is concerned, beans are beans—in every sense of the word.

One month ago, when the grower seemed assured of the return of five and five and one-half cents per pound for his product, there was undertaken a general discussion among owners of land as to the advisability of the larger acreage.

With this thought in mind, meetings were called and experts engaged to tell of methods of culture and care and marketing, the matter being being on Farm Adviser Smith's schedule for another gathering at an early date.

Now comes the announcement that the bean that a few weeks ago was bringing five cents, is hard to get and difficult of future contract at the goodly price of 7 1/2 cents per pound. Advance Anticipated.

And the dealers declare that the ten cent bean is not such a remote possibility. Certain it is that there are many land holders in this immediate vicinity who are giving their thought and investigation to the growing of beans with a view to the larger acreage for the near future.

To this end J. C. Perkins, who controls the Bullard acres on the north of the city, is preparing ground for a large acreage.

Farm Adviser LeRoy Smith, while not being able to determine the acreage of the county, is authorized by the statement that with the holding of the rainy season, there is in store for the man with an acreage of beans something of a financial return this year that shall be in the nature of "Just like getting money from home."

MEDICAL SOCIETY RESUMES MEETINGS

The Fresno County Medical Society resumed its regular monthly meetings last night, following the summer vacation, with one of the best attended sessions in the history of the organization. The meeting was held in the office of Dr. J. R. Harris, one of the "four-minute" speakers. Dr. Trowbridge gave a demonstra-

CAMPAIGN IS ON FOR WAR LIBRARY FUND

Supervisors Contribute
\$100; Librarian Asks
for Donations

In response to the appeal of the Library War Council, Miss Sarah McCordie, librarian at the Fresno County library, has inaugurated a campaign for the purpose of raising \$1,000 in this district as Fresno county's contribution to the scheme. It is proposed to raise \$1,000,000 over the United States, the money to be raised in proportion to the population, and Fresno's share is approximately \$1,000. The object of the fund is to buy books on technical subjects for the army, in addition to collecting and distributing 600,000 additional books, and starting libraries at the various camps throughout the country.

Already several women's clubs have taken the matter up in this city, and have contributed to the fund.

At a meeting of the board of supervisors held yesterday the board authorized a donation of \$100 to the fund, in doing this they were acting in their capacity as county library board.

Miss McCordie intends to prosecute a vigorous campaign during the present week which is to be the last week of the campaign over the country. Books as well as cash contributions are invited, and these may be deposited at the public library.

Miss McCordie states that she expects a hearty response to the appeal, and states that with the co-operation of the clubs and associations throughout the county Fresno's share will be subscribed within the week.

SELECT MORE MEN TO LEAVE THURS.

MERCED, Oct. 2.—The names of ten more men who will be included in the Merced contingent going to American Lake, Washington, next Thursday, were announced by the local exemption board today. Added to the list of forty-eight names previously published this means that fifty-eight of the eighty-eight men to be included in the contingent are now chosen. The selection of the thirty other names is delayed by tardiness of returns from the district exemption board. Following are the ten names announced today:

Romeo Taglio, Ingomar.
James Nelson Gorham, Amsterdam.
Louis Ralph Bixzint, Gustine.
Stanley Reed, Merced.
Philo Peruchel, Delia.
Frank Narciso, Volta.
James Bart Johnson, Dos Palos.
Vittorio Lucchinetti, Dos Palos.
Julius Alexander, Kuehl, Merced.
George Johnson, Dos Palos.

tion of a particularly interesting case under his name and an interesting address on "Bone Graft" was given by Dr. Rosson of Hanford.

The next meeting of the society will be held at the office of Dr. J. R. Walker.

COMMISSION WILL SOON PRESENT ZONE LAW

Two New Remonstrances
Placed on File With
City Trustees

Planning Commission to Hold More Hearings With Committees

The action of the city trustees Monday night in confirming contract with C. H. Cheney, consultant to the City Planning Commission, leaves the way clear for the body to continue its work and prepare a survey and report for a civic center for Fresno. Cheney is given certain time in which to complete his reports and one report will be filed as it is completed. All of the petitions of protest received have been placed on file, and it has been announced that the time to hear the protests is when the planning commission presents its zone ordinance.

Miss O. Humphreys, president of the commission, announced at the hearing before the trustees, that the ordinance would be ready to present in a short time. From all indications both sides will be out in force when the ordinance is presented to the councilmen.

The planning commission will, the last of this week or the first of next, commence its work in connection with committees from the different organizations in the city in regard to the zone ordinance.

Two petitions against the zone ordinance were presented to the councilmen Monday night. One petition was endorsed Monday morning at a meeting of business men at the Commercial club, while the other remonstrance was signed by owners or men leasing packing houses on the Southern Pacific reservation.

Property Owners Protest.
The following protest was filed by Riley in behalf of the Real Property Owners Committee:

To the Mayor and Board of Trustees of the City of Fresno:
Gentlemen:

As chairman of the committee of property owners in the city of Fresno, I have been instructed by them to report to your honorable board that they are opposed to any further expenditures by the city of Fresno in any manner, and they are also opposed to the payment from the treasury of the city of Fresno any additional sums of money except such as are absolutely necessary to meet indebtedness already incurred by that commission.

This request was made of me by property owners after mature consideration of all the phases of the various ideas presented by this city planning commission which is seeking to put into effect the ordinance of the city of Fresno, and the gentlemen represented by me are making this request for the following reasons:

1. That they do not believe that the idea sought to be brought into existence by this city planning commission will be beneficial to the city of Fresno or to its property owners in any way.

2. They believe that the city planning commission was brought into existence with the idea in view of enlightening the board of trustees of the city of Fresno upon the subject in hand and for no other purpose.

3. They believe that a sufficient amount of time and a sufficient amount of city money has already been expended for that purpose.

4. They believe that the city engineer of the city of Fresno is perfectly competent to prepare a file as the request of the board any maps, plans or plans which this board may hereafter want to adopt along the line of said zoning or planning.

5. They also believe that this city planning commission can be used to a much better advantage either in the police department, the fire department, the street department, or any other department of the city.

6. They do believe, however, that some benefits may result to the city of Fresno by the agitation of this matter, already brought into existence, and the community that it should be done very carefully, very slowly and from time to time by this board of trustees.

7. These property owners also believe that an ordinance such as the one proposed by this planning commission would have a tendency to retard investment in the city of Fresno.

8. These property owners believe that residential districts, and other property owners, are simply incidental to the business interests of the community and for that reason they believe that every possible inducement should be held out to investors, both in business blocks for business purposes and other lines of industrial business and factory business, and that a strict zoning of the location either of business buildings or industrial sites will have a detrimental effect upon the future growth of the city.

There have been many other reasons suggested by the various property owners of this city against the plan or idea of this zoning commission, but I do not consider it necessary to state them here, but in order that this committee will not be bound in the future to the objections made in this letter, I am calling your attention to the fact that many more exist.

Respectfully submitted,
THOMAS E. RISLEY,
Chairman of the Real Property Owners' Committee.

McDaniel Files Protest
W. M. McDaniel, at the meeting

BAPTIST CHURCH HAS MEN'S RALLY BANQUET

A banquet for the men served by the ladies of the congregation of the First Baptist church last night formed the second day of the rally week inaugurated by the church. A musical program and an address by Dr. H. C. Hirsch were the principal items of the evening's entertainment.

The banquet was served by Division of the Ladies' Auxiliary, of which Mrs. D. E. Smith is the leader. Floral decorations were furnished by Miss Kate Parsons, and musical selections were played on a phonograph.

Dr. J. Harvey Deere acted as temporary leader, and R. A. Powell was chosen as permanent president of the brotherhood to fill the vacancy caused by the resignation of N. P. Eby.

Program was as follows: A piano solo by Van Laundt, a song by Charles Ebyert, an address by Frank Hesse of the U. S. geological survey, and an address on "Patriotism" by Dr. H. C. Hirsch.

1917 RAISIN CROPS IS 150,000 TONS

This Is Estimate. Made
By President of
Associated

If present weather conditions continue until the crop is in sweat-boxes, the state of California will this year produce about 150,000 tons of raisins, the greatest production in the history of this industry. This is the forecast made by Wylie M. Giffen, in the latest issue of the Sun-Maid Herald, which will appear within a day or two. Something of the growth of the raisin industry in the past five years may be learned from the opening paragraphs of his article. They follow:

The crop in the year 1913 which was the first year the California Associated Raisin Company did business, amounted to about 75,000 tons, which was practically an average for the preceding five years; the 1914 crop amounted to about 85,000 tons; the 1915 crop to about 130,000 tons; the 1916 crop to 132,000 tons. This last year, however, undoubtedly ran as high as 150,000 tons if it had not been for the loss by rain.

The 1917 crop is now practically on the tray, and everything points to a record crop, which will, undoubtedly, amount to as much as 150,000 tons of raisins, so that in five years we have been in business the crop has practically doubled. This is due, in some measure, to the increased planting of Thompson Seedless vines, but is due, in a large measure, to the better cultivation which has been in vogue, doubled the production of old vineyards.

RED CROSS RALLY HELD AT PARLIER

Horrors of War Pictured
By Speaker in Effort to
Arouse Interest

North, the shade of the largest tree in all America, at the home of C. A. Parlier, in the town of Parlier, last evening the people of that neighborhood, to the number of about 100, gathered in a Red Cross rally that proved entertaining, profitable and educational.

The Selma band and some of the young people of the neighborhood, in song and in dance and in the instrumental music, furnished the entertainment, which program was supplemented by the offerings of Harry James in monologue and story.

The educational touch was furnished by "The Friend Society" of the Republican party, who delivered the address of the evening, an address that pictured the horrors of the European war and brought to the fuller realization the need of the Red Cross and the deeper appreciation of the duty that devolves upon every citizen.

Many memberships were added to the auxiliary rolls as a result of the meeting. The entertainment was under the auspices of the Eastside Country Club.

KNITTING CLUB RESUMES WORK

New Supply of Yarn to Be
on Hand at Meeting for
This Afternoon

The announcement is made that the Red Cross Knitting Club No. 2, is to again assemble this afternoon at the home of Mrs. J. J. Lantry, 1158 S. Street, at which time the work outlined at the time of the formation of the club is to be resumed.

The lack of yarn that has been the cause of some embarrassment in the activities of the club has been overcome, there now being a sufficient supply and the thought is that now the mark is set in the creation of garments can be gained and in the time limit set, if there be a general speeding up of the needles.

Mrs. Lantry said it to be made plain that all having a desire to have a part with club No. 2, are cordially invited to put in an appearance at her home this afternoon.

Monday night, filed a petition signed by a number of packing house owners protesting against the zone ordinance. The petition follows:

To the Mayor and Councilmen:
We, the undersigned, beg to most respectfully protest against action zoning the city of Fresno in such a manner that it will prevent the usage of lands located therein for the purpose for which said lands were originally purchased or leased, knowing and believing that any such action is to the detriment of the city of Fresno as an industrial center:

QUARTET INTERRUPTED IN QUIET POKER GAME

Fifty-two pasteboards and \$14.10 in coin represent the evidence which will be used in the prosecution of the charges brought against the Great Lakes Towing Company, the alleged towing trust, under the Sherman anti-trust law.

Fresno Maternity Hospital, 204 N. Van Ness.

NO TOWING TRUST.
WASHINGTON, Oct. 2.—On motion of the government, the supreme court today dismissed charges brought against the Great Lakes Towing Company, the alleged towing trust, under the Sherman anti-trust law.

Fresno Maternity Hospital, 204 N. Van Ness.

There'll Be A Difference

If your neighbor plants an orchard in holes dug with a spade, and you plant in holes made with Hercules Dynamite, there will always be a difference in your favor.

The difference will show in the first cost in time and labor; in the size and strength of the trees a year from now; in the quantity and quality of the fruit obtained four and five years hence; and lastly, in the profits deposited in the bank. Eventually your neighbor will follow your method of tree planting. The difference will make him.

HERCULES DYNAMITE

not only makes holes more quickly and cheaply but it makes better holes. The soil is loosened and broken up. Roots have a chance to spread as they should. The tree has nothing to do but live and grow and prosper.

When planted in a spade-dug hole it

has to fight for life. The difference always shows.

Find out more about the use of Hercules Dynamite on your farm. Write today for the 64 page book, "Progressive Cultivation." It is sent free on request. The coupon below is ready for your signature.

Defend Yourself!

When a substitute for genuine Aspirin is offered it is your duty to defend yourself by refusing it. Every package and every tablet of genuine Aspirin bears

"The Bayer Cross—Your Guarantee of Purity"

TABLETS in pocket boxes of 12
Bottles of 24 and 100
CAPSULES in sealed packages of 12 and 24

The trade mark "Aspirin" (Reg. U.S. Pat. Off.) is a guarantee that the monoacetic acid ester of salicylic acid in these tablets and capsules is of the reliable Bayer manufacture.

Is it possible for a singer to sing a duet with herself? Can a living voice and the same voice reproduced on an instrument be so identical in tone quality that they cannot be distinguished, one from the other?

Has science achieved a triumph that marks the dawn of a new day in the art of music?

These are some of the questions—questions in which every person of culture must take a deep interest—that will be answered at the exclusive musical recital to be given at the First Christian church, on Tuesday evening, October 9, 1917.

At this recital Madame Odette LeFontenay of the Metropolitan Opera Co., season 1916-17, will sing in comparison with her voice as re-created by the New Edison, to enable those in the audience to judge whether or not the living voice can be made to live forever. Can it be done? This is the question the musicians of the City are asking themselves today.

Madame LeFontenay will be ably assisted by Miss Dorothy Hoyle, a violinist of rare distinction, who for several seasons has toured as soloist with Sousa's Band.

THIRD GROUP OF ARMY NOW MOVES

No Decision Yet on Question of Examining All the Draft

WASHINGTON, Oct. 2.—The third contingent of national army men will begin moving tomorrow to the sixteen cantonments, where approximately only one-half of the 657,000 selected men called out by the President already have been mobilized. Quotas now ready to leave home vary greatly, ranging from 17 to 40 per cent of the full state quota, with a general average of between 20 and 25 per cent.

Modification of previous quota plans was necessary because of the condition of the cantonments and the availability of equipment.

Definite figures are still lacking as to the number of selected men to be transferred to the National Guard, aviation service, medical corps or other branches of the army that will have to be filled up to war strength. It is certain, however, that the men remaining at the camps will not be sufficient to fill the sixteen national army divisions to full strength.

Secretary Baker indicated today that no decision had been reached as to when a second call will be made. There are many deficiencies to be filled in the first draft, physical examination of the selected men by army doctors at the camps having resulted in many rejections.

Decisions of the War department on the suggestion that the remaining seven million registered men be examined immediately and classified for service in order that they may have knowledge of when to expect a call to the colors and arrange their affairs accordingly, is waiting action by Congress on the war deficiency bill.

Secretary Baker said today that of some thirty-five governors who had asked if they believed it wise and expedient to proceed with the examination of all registered men, only two had opposed the plan. Those two did so on the ground that it would make too great a demand on the time of the examining boards, virtually all the members of which are serving without pay.

STORMS DO DAMAGE IN INTERIOR JAPAN

NEW YORK, Oct. 2.—Destructive typhoons in interior Japan are reported in a cable message received today by the Commercial Cable Company from the Japanese telegraph administration. The interior service is disrupted, and there is a consequent delay in the transmission of messages, the cablegram says.

VINOL CREATES STRENGTH

Positive—Convincing Proof

It is all very well to make claims; but can they be proven? We publish the formula of Vinol to prove the statements we make about it.

Red Liver and Best Peppermint, Iron and Manganese, Potassium, Calcium, Sodium, Phosphorus, Lime and Soda Glycine-phosphates, Casein.

Any doctor will tell you that the ingredients of Vinol as published above, combine the very elements needed to make strength.

All weak, run-down, overworked, nervous men and women may prove this at our expense.

There is nothing like Vinol to restore strength and vitality to feeble old people, delicate children and all persons who need more strength.

Try it. If you are not entirely satisfied, we will return your money without question; that proves our fairness and your protection. Bowman Drug Co.

PEACE TALK

GLENWOOD CALLS FOR EXPULSION OF LA FOLLETTE

GLENWOOD, Wis., Oct. 2.—Although nearly one-half of the population of this town is of German descent, the city council today unanimously adopted resolutions demanding the expulsion of Robert M. La Follette from the United States Senate.

MAY HAVE CHECKED SANTA CRUZ FIRE

SAN JOSE, Oct. 2.—A forest fire in the richly timbered country near Pescadero, which has been threatening for two days to destroy heavy timber over an area of forty square miles, was practically under control tonight, according to word which reached this city at 8:30 o'clock from the California Redwood park. H. L. Middleton, president of the West Coast Lumber company, rushed a force of twenty men to the eastern side of the fire this morning, and tonight it was said their work is bearing fruit.

THE "CREED" OF JOHN DOE

(Continued from page 4)

anonymous! I believe that the kindest words are apt to be the quietest, and the bravest men, the gentlest, and the simplest people who have ever lived, or are living now, are apt to be unknown, except to God. I am hoping that someday I myself can truly love to be unknown.

Ninth: I believe in God, in worship together in prayer alone. I sometimes feel toward God as I felt toward my Mother when I was a little child, and could cry it out at her knees, or say my evening prayer there. God is as real to me as my own Mother, for He is the Father and the Mother of us all. I do not care so much for my theories about the personality or super-personality of the deity but that when I feel like it I love to kneel by my bed in the dark alone and quietly talk with God. Utterance makes clear to me what my life means. Confession seems to make me clean, to make my mind and memory and heart clear, of my many real sins of thought, word and deed. My promises to God help to make me strong. Still, I do not like men to pray too much in public: some things are sacred and personal. I am sorry for all men and women who have forgotten how to talk with God, for when I do not talk with God, I find it harder to walk with Him. It is frightfully lonely to walk through life without Him. So when a man says to me that God is not real to him, I do not condemn that man; I pity him just as I pity a blind or a deaf man. It is a very sorry kind of education that educates out of a man the human qualities.

Tenth: I believe in forgiveness. I love the gentle proverb, "He who understands all, forgives all." I like that word of Walt Whitman's, "If I had known you, perhaps I should have loved you." I believe in forgiving myself, and for myself and others I believe in many "fresh starts in life." Truly the poet says of forgiveness that it is a word beautiful as the sky. Nature may not forgive, but human nature does, and I believe that God does. When I see Nature making beauty of scars and ruins, sometimes I think that Nature too forgives.

Eleventh: I believe that my life and every man's life is a plan of God. I believe, as one says, that there is guidance for each one of us, if we will only listen. I believe that every life, even the most married, can be made beautiful. I believe him true who says that in every occupation which is not wicked a man may be a hero, or a woman a heroine. I believe that there are no true heroes and heroines who have no decorations and are not aware of their heroism.—It is an commonplace, so natural, and with heroic hearts everywhere, I believe that shining friendships are waiting for you and for me wherever we go, and that there are no true friends but hand and eye whom it is worth encircling the globe to meet. But to unfold the full meaning of your life and of mine, and how beautiful each one is, that I believe, requires the spaciousness of eternal life.

Twelfth: Finally, I believe in having high ideals no matter how far we fall short of them. The shocks of experience should correct and broaden our ideals, but never shatter them.

FIND MASTER SPY IN SAN FRANCISCO

German Chemist Held Five Days for Organizing Bomb Plot

SAN FRANCISCO, Oct. 2.—Further details of the hunt United States authorities are conducting for German agents in San Francisco became known late today when it was announced that a presidential warrant had been requested for Conrad Schirman, German chemist here, who has been held in custody secretly for the last five days. Federal authorities believe Schirman is the "master spy." His activities, they said, consisted of organizing a plot to plant bombs among the cargoes of ships leaving this city for island and Oriental ports, and of attempting to bribe an officer of the Dutch warship Zeland, which was here sometime ago, to carry messages to German consuls in Holland. These messages, the Federal authorities declared, were of grave importance. In them Schirman was alleged to have related the unsuccessful attempt to effect the escape of Franz Bopp, former German consul general here, from an internment camp on Angel Island. Three men were convicted of attempting to effect Bopp's escape.

"I will do anything to assist the fatherland," was one of the statements Federal authorities said Schirman made in the messages.

Secret service agents said Schirman had refused to reply to questions put to him by them during his five days' confinement.

Schirman will be taken to Angel Island tomorrow. It was announced by the United States. The request for the warrant asked that he be charged him with being an alien enemy.

The disclosure of Schirman's confinement followed closely upon a hearing made by Federal authorities on a hearing board, which resulted in the discovery of a radio wireless plant, said to have been used to send messages in violation of war department orders. No arrests were made but it was announced that the United States district attorney's office was making a full investigation.

RECOMMENDS PAROLE FOR YOUNG CAMINETTI

SAN FRANCISCO, Oct. 2.—F. Drew Caminetti, son of United States Commissioner of Immigration A. Caminetti, who is serving an eighteen-month sentence for violating the Mann white slave law, has been recommended for parole by United States Attorney General Gregory, according to Federal authorities here today.

Mauri J. Diggs, co-defendant with Caminetti, who was sentenced to two years for the same offense, will be released in December, it was said.

Diggs and Caminetti went to prison only after a legal fight that carried their case to the United States supreme court, which upheld the sentences imposed by Judge William Van Fleet of the United States district court.

PHOENIX, ARIZ., OCT. 2.—The quota of Arizona's drafted men for the national army which will leave tomorrow for Camp Funston, Kansas, will be permitted to take extra bedding with them, Governor Thomas E. Campbell announced tonight. Permission was granted by Major General Leonard Wood, commanding the cantonment, upon request of Governor Campbell, who had received reports of suffering at the camp because of insufficient bedding and heating facilities.

GREENVILLE, S. C., OCT. 2.—W. P. Beards, editor and publisher of the Southern, a weekly newspaper at Asheville, S. C., was indicted by a Federal grand jury here today on charges of making and conveying "false reports and statements" about the government, attempting "to cause insubordination, disloyalty and refusal of duty in the military and naval forces, and of obstructing enlistments. The indictment was based on an article appearing in his newspaper which recently was barred from the mails.

LONDON, OCT. 2.—An Amsterdam dispatch to the Exchange Telegraph says that the Deutsche bank has decided to issue twenty-million marks of new shares with dividends running from January, 1917. Sanction will be sought from the government. It is believed the bank intends to open branches in Rumania, Russia and Belgium.

AIRMEN WRECK GERMAN RAILWAY LINES IN BELGIUM

LONDON, Oct. 2.—Dispatches from Holland forwarded by frontier correspondents say that the allied airmen are playing havoc with the German railway communications and military establishments in Belgium.

THE WORLD WAR

ROME, Oct. 2.—The Vatican has delivered to the British minister the text of the replies of Germany and Austria to the Pope's peace proposals. The replies were accompanied by a short note from the Vatican.

PETROGRAD, OCT. 2.—The British, French and Italian governments, through their representatives here, have denied categorically the intention attributed to the Entente Allied powers of taking advantage of the difficult situation in Russia in order to insure their own interests.

COPENHAGEN, OCT. 2.—American exchange here has dropped to 14 per cent below normal, while the German mark has reached a point 55 per cent below its peace value.

WASHINGTON, OCT. 2.—Published reports of the designation of public men to assist Colonel E. M. House in collecting data to be used whenever peace discussions start were deprecated today at the White House, where it was said the President had named no assistant to Colonel House, who had been working on peace questions for two years.

PETROGRAD, OCT. 2.—Confidence is increasing in government circles that the coalition will receive the sanction of the democratic congress. There also are indications that the plan for a parliament, advocated by certain strong groups in the congress, will not meet with opposition from the government, provided the property-owning classes are given a fair representation in it.

ROCHESTER, N. Y., OCT. 2.—America's greatest task in the world is to solve the submarine problem, Lord Northcliffe told Rochester business men tonight at a dinner to dedicate the new Chamber of Commerce building and he added that there was yet no machine made that was able to sink a submarine.

BOSTON, OCT. 2.—"Buy now," was the selling slogan adopted today by New England loan committees for the campaign to raise \$500,000,000, the maximum bond allotment for this district. Unofficial figures tonight indicated that \$5,000,000 worth of bonds had been subscribed here in the two days of the campaign.

WASHINGTON, OCT. 2.—Secretary Daniels, Chairman Henry P. Davidson and other members of the Red Cross war council and fifty officers from national headquarters here will review a Red Cross parade in New York Thursday in honor of nurses now in war service and others soon to leave for Europe. Mrs. Josephus Daniels will lead a division from Washington.

PETROGRAD, OCT. 2.—M. Valichin, deputy for the Ukraine, who is attending the democratic congress here, delivered a speech today denouncing autonomy for Ukraine and also the cessation of hostilities.

KANSAS CITY, MO., OCT. 2.—Kansas City's campaign for the second Liberty loan began with the announcement that \$1,000,000 had been subscribed by the First National Bank.

CLEVELAND, OHIO, OCT. 2.—Cleveland's subscriptions in the first two days of the second Liberty loan campaign totaled \$7,110,000.

ST. LOUIS, OCT. 2.—St. Louis in two days has subscribed between \$5,000,000 and \$5,500,000 to the second Liberty loan bond sale.

CHESTER, PA., OCT. 2.—Two alleged I. W. W. leaders were arrested today on warrants charging them with murder in connection with the explosion of the Edgemoor ammunition plant on April 10, which cost 123 lives. The prisoners are Nicholas Kleckner and Mitchell Lagoda.

NEW YORK, OCT. 2.—Thousands of Jews on the way from war stricken regions of Russia to the United States are stranded in Harbin, Manchuria, and Kobe and Yokohama, Japan, and are in a deplorable condition, Secretary of State Lansing has informed the Hebrew Sheltering and Immigrant Society of America. It was announced here tonight.

LONDON, OCT. 2.—There has been a big influx of people in towns outside of London since the recent moonlight air

M'ADOO CARRIES LOAN CAMPAIGN TO MIDDLE WEST

(Continued from Page 1.)

Pierce county will have the honor of being the first of the third quota to report at Camp Lewis, when they arrive by automobile tomorrow, Friday, 2:45 from Wyoming, Idaho, Montana, Utah and California will report. The receiving system is in such smooth running order that 600 troops can be checked in, given examinations for contagious diseases and taken to barracks in an hour.

FOR OUR SOLDIERS

INDIANAPOLIS, Oct. 2.—William G. McAdoo, secretary of the treasury, spoke here today in favor of the second Liberty loan.

"When war comes to a nation, the first essential is money," he said. "We must keep our soldiers and sailors armed and equipped. We must, as a humane nation, support their dependent families while they are risking and giving their very lives for us; we must supply them with a reasonable amount of life insurance.

"The money that we are raising by taxation and by bond issues is being devoted to these purposes. More than \$5,500,000,000 of the money that you are going to provide this fiscal year is being expended or will be expended upon your army—upon from 1,800,000 to 2,600,000 of the bravest and most gallant soldiers that ever donned the uniform, and your navy."

TURNED BOTH CHEEKS

CHICAGO, Oct. 2.—A warning that the United States was not in the war merely for altruistic purposes, but was fighting for her sacred rights, her independence and her security for the future, was served on a large Chicago audience tonight by Secretary McAdoo in urging that generous support be given the second Liberty loan.

Secretary McAdoo declared that Germany, in actual fact, had been at war with the United States long before a state of war officially was recognized, and Germany's "destroying American lives through sinking ships was in evidence long before the state of war should have been at war long before with Germany," he continued. "President Wilson, in his eagerness to save America from this colossal conflict, went to the extreme of forbearance and patience in order to escape with peace and honor, and postponed the conflict until it was no longer possible to avoid the issue."

raids and at many places difficulty at first was found in providing accommodations for the visitors.

STOCKHOLM, OCT. 2.—Matter of relief for naturalized Americans is becoming most serious in Syria and Palestine, according to reports received by the American minister, Sir Nelson Morris. The situation is more than 200 Americans are threatened with death by starvation unless aid comes quickly. Conditions in Syria are better, although there are also some needy Americans there.

WASHINGTON, OCT. 2.—In order to facilitate the handling of mail for American soldiers in Europe, the post office department authorizes the establishment of a western military terminal at Chicago, where will be assembled all mail collected west of the Mississippi river addressed to members of the expeditionary force.

WASHINGTON, OCT. 2.—A bill to remove the age limits in the lower grades of the officers' reserve corps was passed today by the House. It was urged by the war department because 150 candidates who have satisfactorily completed the aviation course are over age for lieutenants' commissions, while 200 others will be ready for commissions within three months. The department estimated that the bill would effect a saving in pay of \$1,600,000 a year.

THE JOKE TURNED.

A man thought he would have some fun with Josef Hofmann, the pianist. One evening Hofmann was at dinner, and after he had passed his friend, a man called.

"Hello Hofmann! Wait a minute. Come back."

He was whispered to Hofmann, "I just wanted to ask you how far you would have gone if I hadn't called you back, and the company, in on the joke, laughed. Hofmann never moved a muscle of his face. But, straightening up, he said, so that the entire table could hear him:

"My dear fellow, there is no one in the world whom I would rather oblige than you, but to tell the truth, I haven't got \$5 in my pocket."—Ladies' Home Journal.

A BALD HEAD.

Does not look well and often causes front baldness. Use Smith's Dandruff Powder. One application stops itching scalp and three to six removes all dandruff. At all druggists and Staff's Bros. Drug Store.

GREATER STRENGTH Fewer Spoonfuls

BIGGER SAVINGS

The value of baking powder is based on its leavening strength. You can't judge it by the size of the can—or by the amount you get for your money. You must estimate it by the amount of baking powder used in each baking and the results you get.

CALUMET

is the greatest value ever offered in Baking Powder—it has greater raising "force"—it goes further than most of the other brands. You use only a rounded or heaping teaspoonful where others call for two teaspoonfuls or more.

But Baking Powder is not all you'll save when using Calumet. You save baking materials. Calumet never fails. The last level teaspoonful is as powerful as the first. Calumet is perfectly manufactured—keeps perfectly—and is moderate in price.

One trial will satisfy you of these facts—and demonstrate beyond doubt that "Calumet spells economy."

Your grocer sells it on a guarantee of money back if you are not pleased with results.

Calumet contains only such ingredients as have been approved officially by the U. S. Food Authorities.

ANGIE REED—PLAZA

KING CO. PRESENTS NEW SHOW TONIGHT

The new show which the King Company will present at the Plaza starting tonight will mark the final offering for the season at the Airborne, which closes Friday night, with the production of "Pretty Peggy," which opens tonight.

"Pretty Peggy" is one of those riotous comedies with a little plot, a little nonsense, lots of fun and plenty of good humor. There will be a lot of

new songs and dances, pretty costumes and new scenery.

On Saturday matinee at 2:30, the "What Next" will open at the White Theater for an additional run. There will be matinees Saturday and Sunday at the White, but the week-day policy will be the same as at the Airborne.

The entire company, with the addition of some new faces in the chorus, will be seen at the White, where a continuation of the very successful season at the Plaza is expected.

SEVERAL STARS IN "WHAT NEXT"

"What Next," the new Oliver Morosini musical comedy, which opens at the White theater tomorrow night for a two-night engagement, is announced as a "very near relative" of "So Long Letty" and "Canary Cottage," all of which betokens much joy, good music, catchy song hits and a glorious cluster of stars for the amusement of playgoers.

The names of the stars of the organization read like a list to be found in "Who's Who in Theatricaldom." Blanche Ring, one of America's foremost comedienne, is the bright particular star, in "What Next." Miss Ring will introduce several new songs and the famous Ring personality will be much in evidence. Charles Winninger, a comedian of note, plays a leading role. Flanagan and Edwards, as usual will lend much to the merriment of the entertainment. Eva Patton sings a lead-in role; the three Pu-Pu Brothers are dancers of exceptional ability, and the glorious chorus of California California "pencils" add not a little to the beauty of "What Next."

DIVORCE TRIAL TAKES COURT DAY

Hearing in the divorce suit of Marie Hansen against Niels Hansen, occupied the entire day yesterday in department two, with Judge George R. Church on the bench. The case was continued to October 11 for argument. Julia represented the plaintiff and M. Drew the defendant. A score of witnesses were examined during the day.

MRS. LEOTA ZAPP SEEKS DIVORCE

Leota F. Zapp has filed suit for divorce from John Zapp on the charge of cruelty and desertion. It is understood that a property settlement has been effected out of court. Events and living are attorneys for Mrs. Zapp.

Oil News

WILL SYSTEMATIZE REFINING OF OILS

Standard and Independents Meet for First Time on Common Ground

KANSAS CITY, Mo., Oct. 2.—Two hundred and fifty representatives of producing and refining companies of the Mid-Continent oilfield met here today to determine the manner in which the production and refining of oil in America shall be systematized for the duration of the war. This is the first time the independents and Standard oil men have met on common ground, the operators say.

UNION WILL ISSUE MILLION DIVIDEND

Earnings of Big Company Increase \$30,000 During Last Quarter

LOS ANGELES, Oct. 2.—The distribution of approximately \$1,000,000 in the form of regular and special dividends to the stockholders of the Union Oil Company is one of the outstanding indications of the prosperity that at present prevails in Los Angeles and Southern California. This huge sum represents the last three months earnings of the Union Oil Company.

The announcement was made yesterday morning by Comptroller R. D. Matthews of the Union Oil Company following a meeting of the board of directors. The distribution was made in the form of a regular dividend of \$1.50 per share and a special dividend of \$1.50 per share.

The disbursement will affect all stockholders of record on the 10th inst. On that date the books of the company will be closed and all holders will receive their dividends after 12 o'clock on the 20th inst. This disbursement exceeds the former dividend, which was a record breaker by \$30,000. From present indications the next dividend will be even greater than this one.

The board of directors also notified holders of certificates in the United Petroleum Company, the former holding company, but dissolved by court order, that they must complete the transfer of their certificates by the 10th inst. in order to participate in the present dividend.

The matter of subscribing to a large block of the second Liberty loan was also discussed. Action will be taken later, the matter being left to the discretion of the stockholders. The Union Oil Company subscribed to \$500,000 of the first Liberty loan.

NEW PRICES MAY BE BLOW TO INDUSTRY

LOS ANGELES, Oct. 2.—Information from Washington, both in the press dispatches and in private messages received by men high in oil circles, gives support to fear that a policy of price fixing may be adopted with reference to oil and gasoline, which will be extremely unfortunate for the industry. While one report has it that the Federal trade commission is said to have reported that it costs 90 cents to \$2 a barrel to produce crude oil and 14 to 20 cents a gallon to make gasoline, other reports have been more pessimistic, and there is believed to be danger of a cut being made in California to as little as less than half the present prices for fuel and crude oil.

The Federal trade commission had representatives in California quite recently, gathering information from all sources, and its report has just been submitted. It has not been made public but some strong hints of its contents have leaked and what has leaked is not encouraging. The fact that coal prices have been cut to a figure that is causing widespread dissatisfaction among the coal men, especially in the West, is a condition threatened also in the oil industry—and the further cut of 50 per cent in the value of steel, are not looked upon as forecasts of a disposition on the part of the government to favor an industry deemed of sufficient importance to receive its attention.

On the other hand, oil operators see no hope of relief for the existing shortage of oil, well or refinery building in the recent past steel prices have been cut to a figure that the mills are sold out for a period of from nine months to a year ahead. New price cards may be issued but for practical purposes they will be like an advertisement of a merchant to sell shoes for \$1 when he does not carry any in stock.

FULLERTON FIELD SHOWS INCREASE

LOS ANGELES, Oct. 2.—"Guesses compiled from all the wells in the Fullerton field indicate that the present production of the district is the greatest in its history. The combined daily output is placed at 51,400 barrels, this showing being the best made since the beginning of the year, when the January output was computed at 49,251 barrels daily. The bringing in of two big wells on the Standard's Murphy lease did much to bring the daily average output to the present figures.

BRIEF OIL NOTES OF MIDWAY FIELD

Taft, Oct. 2.—Realizing that rug bull ropes are now worth almost their weight in gold and appreciating the fact that wire lines are fast taking the place of hemp, operators are now using a coupling which is twisting to much in holding down expense in the handling of wire rope about wells. Heretofore in handling wire rope it was necessary to make a splice in coupling two ends together. This was many times unsatisfactory and at the same time took up many hours at a well of an employee's time. With this new coupling a perfect adjustment of a line can be made by twisting an untwisting the cable. The ends of the line are babbled under the coupling

How to Keep Well; Talks on Health

By DR. W. A. EVANS
Professor of Hygiene in Northwestern University and Former Health Commissioner of Chicago

DIET FOR HIGH BLOOD PRESSURE.

Persons with high blood pressure must live on a low protein diet. Those who have this disease are at a time of life when they need only little protein. Stomach gives us a diet low in protein. Cream soups, except cream of peas and beans.

All kinds of fresh and stewed fruits. Vegetables—Potatoes, squash, carrots, beets, cabbage, cauliflower, watercress, Brussels sprouts, lettuce, spinach, celery, romaine, watercress, artichokes, cucumbers, tomatoes, mushrooms, asparagus, radishes, and onions.

Sugar, in abundance. Bread—White bread, toast, zwieback, crackers.

Cereals of all kinds. Beverages—Water, milk, cocoa, and beer.

Meat should not be allowed more than once a day, and then only in small quantity. Likewise the quality of milk should be limited.

Stomach especially emphasizes the need of water and fiber. It advises that infection from the mouth, tonsils, and other foci be treated.

Should a person have a tendency to the formation of oxalate stone in the kidney, as shown by the passage of one or more small stones, he should avoid foods rich in oxalates. Such foods are pepper, corn, rhubarb, spinach, beets, dried figs, tea, and cocoa. It is also advisable to avoid foods rich in lime. Among these are milk, eggs, peas, beans, asparagus, radishes. Such a person should live on meat, cereals, bread, rice, potatoes, and apples, in moderation.

A few people worry much over a milky appearance in the urine, due to phosphates. When such urine is tested it is found to be alkaline. When an acid is added to it, the white precipitate clears. This condition, known as phosphaturia, is an excellent example of what is known as a vicious circle. Worry is responsible for the phosphaturia; and the phosphaturia, when discovered, causes more worry.

The Stinson treatment for phosphaturia is a good game of golf or tennis, or a few days' outing. Drinking large quantities of water is very helpful. This is a good way of getting temporary relief. For a cure it is necessary that one should train his mind in equanimity.

Balls result from an infection of the structure just below the skin. The bacteria pass through the skin to reach the levels where they do the harm. Therefore, the most important step to take when one has balls is to thoroughly cleanse the skin and to keep it clean. However, dieting is of some service. The diet should be free from candy, desserts, and sweets of all kinds. It should contain little bread, cereals, potatoes, beans, and other starchy food. Water, vegetables, fruits, meats, and a moderate amount of butter is the proper diet.

Diet is of some service in the treatment of acne, or pimples. Milk, eggs, coffee, pastries, soups, alcohol, nuts, condiments, and all highly seasoned or concentrated foods are prohibited. Apples, bananas, and sweet corn are helpful. Bread is to be eaten three times a day.

Diet for Duodenal Ulcer. Miss M. B. S. writes: "Will you kindly answer the following questions: 1. Can duodenal ulcer be cured by diet? 2. Can it be cured by medicine or must one have an operation to completely cure it? 3. Is it dangerous or apt to turn to cancer? 4. If left alone will it wear away?"

REPLY. Cure by dieting is possible. The diet should be bland. You should eat at least five small meals a day. If two months under close control and direction of your physician does not place you on the upgrade, you had better submit to an operation. Duodenal ulcer is liable to develop into cancer.

Eyes in Bad Shape. W. P. T. writes: "Would a person with the following defective eyes be rejected from the national army? Right eye, 20-100. Left eye, 20-200 without glasses. Still glasses the same eyes test: Right eye, 20-100. Left eye, 20-200."—Advertisement.

Hold-Perfect. As a time-saver as well as a device to overcome fishing jobs, they apparently have no equal in the oil industry.

Matt Level, one of the pioneers of the Midway, who spent the past year in the Philippines, has returned to California and plans to visit the West Side fields at various intervals. Level is now with the United States bureau of mines, in the work of oil conservation. In the Oklahoma fields he had much to do with the shutting off of gas with mud laden fluid—a method much in use in that district in the caring for wells and the conservation of natural products. Level while in California, will make his headquarters in San Francisco, though he will spend his time in visiting the various oil fields of the state on assignments which come under the head of his department.

UNION OIL MEN TO HOLD MEETING

MARICOPA, Sept. 30.—W. J. Yarrow, chairman of the executive board of the Oilworkers' Union will hold an open meeting in the Mouke hall in Maricopa on Tuesday evening, October 2. The meeting is being held for the purpose that oilworkers be made familiar with conditions existing in all oil fields in the state and to permit addresses being made by the visitors as well as informal talks by the local members. The meeting is considered a most important one and much interest is being taken by members of the Maricopa local. All oil workers, whether union members or not, are urged to attend.

TO THE SWIMMERS OF FRESNO.

Some inquiries having been made if I were going to beat the Fresno plunge baths and keep them open during the winter I would say that I am not, as heated plunge baths do not pay during the winter months. The plunge bath of San Francisco does not pay during the winter months, where there is a large population to draw from. When I managed the Palace baths we closed for five months during the winter season; now fuel costs more than double the former price. I will keep open for a short time to accommodate those that may want a swim. A. Trueworthy, manager, Fresno Plunge Baths, 617 M street.

FOR SALE
Five hundred stock cows 3 to 5 years old, well bred Durham, no Arizona. Price reasonable. Selling on account of short feed. If not sold in a few days will be taken off market.

P. H. FLOTO, Grand Central Hotel, Fresno.
